RELEVANT PREVIOUS ACTIONS: None.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of an “Existing Neighborhood “ and an “Area of Stability”.

An Existing Neighborhood is intended to preserve and enhance Tulsa’s existing single-family neighborhoods. Development activities in these areas should be limited to the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects, as permitted through clear and objective setback, height, and other development standards of the zoning code.

The Areas of Stability include approximately 75% of the city’s total parcels. Existing residential neighborhoods, where change is expected to be minimal, make up a large proportion of the Areas of Stability. The ideal for the Areas of Stability is to identify and maintain the valued character of an area while accommodating the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life.

ANALYSIS OF SURROUNDING AREA: The subject tract is Located East of the SE/c of E. 26th Street S. and South Lewis.

STAFF COMMENTS: The applicant is requesting Special Exception to increase the maximum driveway width, within the right-of-way and on the lot. (Section 55.090-F.3)
In RE and RS zoning districts, driveways serving residential dwelling units may not exceed 50% of the lot frontage or the following maximum widths, whichever is less, unless a greater width is approved in accordance with the special exception procedures of Section 70.120, or, if in a PUD, in accordance with the amendment procedures of Section 30.010-1.2. (Refer to the City of Tulsa Standard Specifications and Details for Residential Driveways #701-704).

[1] Maximum width applies to the composite of all driveways if multiple curb cuts are provided.
[2] Provided that for lot frontages less than 24 feet, a driveway up to 12 feet in width is permitted.

The driveway is limited to 27' within the right-of-way and 30' on the lot. The driveway has been installed without proper building permits or right-of-way permits.

**SAMPLE MOTION:**

Move to ________ (approve/deny) a **Special Exception** to increase the maximum driveway width, within the right-of-way and on the lot. (Section 55.090-F.3)

- Per the Conceptual Plan(s) shown on page(s) ______ of the agenda packet.
- Subject to the following conditions (including time limitation, if any):

The Board finds that the requested Special Exception will be in harmony with the spirit and intent of the Code and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.
Charles, I received the revised driveway plan but unfortunately it still doesn’t work. Here are the issues:

- The city zoning code says the total widths of all driveways inside the right of way cannot be more than 27’. The right of way (ROW) is measured 25’ from the center of the street. Wherever that is in the yard, between that point and the street, the width of all driveways cannot be more than 27’ total. Outside of the ROW, the total of all driveways cannot be wider than 30’. If the existing driveway is 26.7’ at the curb, it can only be 0.3’ (3 5/8”) wider. You really don’t have room for any more driveway inside the ROW. The only way to have a circle drive would be to reduce the existing driveway to 13.5’ wide, have the other end of the driveway 13.5’ wide, so your total width in the ROW would be 27’.
- If you want driveways that are more than 27’ inside the ROW or 30’ outside the ROW, you have to call INCOG at 584-7526 and get on their schedule to ask for the Board of Adjustment for a special exception to have wider driveways.
- Keep in mind you will still have to get a Right of Way permit to do any construction in the ROW. That is separate from this permit. If you get this zoning clearance permit resolved, you still have to get the other ROW permit.
- For any new plans you submit, show the ROW line on the property, which is 25’ in from the center of the street.

HEARING DATE: 03/24/2020 (Continued from 3/10/2020) 1:00 PM

APPLICANT: Amanda Lowe

ACTION REQUESTED: Special Exception to permit carports in the street setback and street yard with modifications to the allowable height, width and length for carports in an R district (Section 90.090-C.1)

LOCATION: 2303 S 137 E AVE; 2302 S 137 E AVE
ZONED: RM-1

PRESENT USE: Apartment Complex
TRACT SIZE: 480900.01 SQ FT

LEGAL DESCRIPTION: LT 3 BLK 1; LT 1 BLK 2, EASTLAND ACRES

RELEVANT PREVIOUS ACTIONS: None.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of a "Regional Center " and an "Area of Growth".

Regional Centers are mid-rise mixed-use areas for large-scale employment, retail, and civic or educational uses. These areas attract workers and visitors from around the region and are key transit hubs; station areas can include housing, retail, entertainment, and other amenities. Automobile parking is provided on-street and in shared lots. Most Regional Centers include a parking management district.

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

ANALYSIS OF SURROUNDING AREA: The subject tract is an apartment complex located at the SW/c of E. 137th E. Ave. and E. 23rd. Pl. on the Southern and Western Boundary of the Eastgate Metroplex Business Center.

STAFF COMMENTS: The applicant is requesting a Special Exception to permit carports in the street setback and street yard with modifications to the allowable height, width and length for carports in an R district (Section 90.090-C.1) for the existing carport within the apartment complex.
1. Carports

Carports are allowed in street setbacks and yards in R zoning districts only if approved in accordance with the special exception procedures of Section 70.120. Any carport that occupies all or a portion of the street setback or street yard area must comply with the following regulations, unless otherwise expressly approved by the board of adjustment as part of the special exception process:

a. A carport may be a detached accessory building or an integral part of the principal building.

b. The area of a carport may not exceed 20 feet in length by 20 feet in width.

c. A detached carport may not exceed 8 feet in height at its perimeter or 18 feet in height at its highest point. A carport erected as an integral part of the principal building may not exceed 8 feet in height within 10 feet of a side lot line or 18 feet at its highest point.

d. The carport structure must be setback from side lot lines by a minimum distance of 5 feet or the depth of the principal building setback, whichever is a greater distance from the side lot line.

e. The carport structure may project into the required street setback by a maximum distance of 20 feet. This distance must be measured from the required street setback line or the exterior building wall of the principal building, whichever results in the least obstruction of the street setback.

f. All sides of a carport that are within the required street setback must be open and unobstructed, except for support columns, which may not obstruct more than 15% of the area of any side.

g. The entire area under a carport may be used only for storage of operable, licensed motor vehicles (i.e., cars, boats, pickup trucks, vans, sport utility vehicles), which are customarily accessory to the dwelling. No other use of the carport area is allowed.

The are multiple carports in the complex with heights of the top plate of the carport ranging from 7.3’ to 9.9’.

**SAMPLE MOTION:**

Move to ________ (approve/deny) a Special Exception to permit carports in the street setback and street yard with modifications to the allowable height, width and length for carports in an R district (Section 90.090-C.1)

- Per the Conceptual Plan(s) shown on page(s) ______ of the agenda packet.

- Subject to the following conditions (including time limitation, if any):

The Board finds that the requested Special Exception will be in harmony with the spirit and intent of the Code and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

Legal Description

Lot One (1), Block Two (2), and Lot Three (3), Block One (1), EASTLAND ACRES, an Addition to the City of Tulsa, Tulsa County, State of Oklahoma, according to the recorded Plat No. 3217.
The Subject Property is used as a multi-family dwelling and is zoned RM-1.

In or around 2013, carports were constructed on the Subject Property to provide covered parking for the residents of the multi-family dwelling. Following a recent survey, it was discovered that portions of particular carports were partially constructed in street setbacks. Pursuant to the Tulsa Zoning Code, carports are allowed in street setbacks in “R” Districts only if approved by special exception. See § 45.030-B. Other than the partial presence in street setbacks, as discussed above, the carports at issue are in compliance with the regulations enumerated in § 90.090-C1.

Accordingly, the Applicant seeks a Special Exception to allow for carports in street setbacks.

Staff review makes neither representation nor recommendation as to any optimal method of code solution for the project.

1. Section 40.225-D. A medical marijuana dispensary may not be located within 1,000 feet of another medical marijuana dispensary.

2. Section 40.225-I. The separation distance required under Section 40.225-D must be measured in a straight line between the nearest perimeter walls of the buildings (or portion of the building, in the case of a multiple-tenant building) occupied by the dispensaries. Submit a copy of the BOA accepted separation distance of 1000' from other dispensaries. Please direct all questions concerning separation distance acceptance and all questions regarding BOA application forms and fees to an INCOG BOA Planner at 918-584-7526. The separation required under Section 40.225-D shall not be applied to limit the location of a medical marijuana dispensary for which a license was issued by the Oklahoma State Department of Health prior to December 1, 2018 for the particular location.

3. Section 70.080-C. Applications must be accompanied by a legal description of the lot and a site plan, drawn to scale, that provides zoning data for the Zoning Review portion of the Certificate of Occupancy application. You have submitted a site plan that does not sufficiently cover all pertinent zoning data necessary for a complete review. Revise and resubmit your site plan providing the location and dimensions of parking areas. This includes the parking spaces, the maneuvering areas necessary to enter and exit the spaces and the drives providing access to the parking spaces and maneuvering areas from a public or private street or other parking areas. Please refer to Section 55.090 for the design dimensions for the parking area.

Surrounding Properties:

BOA-13728: On 09.12.85 the Board approved a Special Exception to permit a mobile home in an RS-3 District and variance of the 1-year time limit for a mobile home. Property located immediately South of the subject property.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of an “Existing Neighborhood” and an “Area of Stability”.

An Existing Neighborhood is intended to preserve and enhance Tulsa’s existing single-family neighborhoods. Development activities in these areas should be limited to the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects, as permitted through clear and objective setback, height, and other development standards of the zoning code.

The Areas of Stability include approximately 75% of the city’s total parcels. Existing residential neighborhoods, where change is expected to be minimal, make up a large proportion of the Areas of Stability. The ideal for the Areas of Stability is to identify and maintain the valued character of an area while accommodating the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life.

ANALYSIS OF SURROUNDING AREA: The subject tract is located South of the SE/c of W. 38th St. S. and S. 27 W. Ave.

STAFF COMMENTS: The applicant is requesting Special Exception to allow a manufactured housing unit in an RS-3 district (Sec.5.020 Table 5-2.5); Special Exception to extend the time limit permanently (Sec.40.210)

**Section 40.210 Manufactured Housing Units**

The supplemental regulations of this section apply only to manufactured housing units approved as special exception uses in R or AG-R zoning districts.

40.210 A The manufactured housing unit must be removed from the lot within one year of the date of special exception approval. The board of adjustment is authorized to extend the one-year limit through approval of a subsequent special exception if the (special exception) extension request is filed before expiration of the one-year time limit.

40.210 B No more than one manufactured housing unit may be located on a lot.

40.210 C Manufactured housing units are required to comply with the same lot and building regulations that apply to detached houses in the subject zoning district.

**SAMPLE MOTION:**

Move to ________ (approve/deny) a **Special Exception** to allow a manufactured housing unit in an RS-3 district (Sec.5.020 Table 5-2.5); **Special Exception** to extend the time limit permanently (Sec.40.210)

- Per the Conceptual Plan(s) shown on page(s) _____ of the agenda packet.
- Subject to the following conditions (including time limitation, if any):

Board Action:

On MOTION of CLUGSTON and SECOND by WISLON, the Board voted 5-0-0
(Bradley, Chappelle, Clugston, White, Wilson, "aye"; no "nays"; no
"abstentions"; none, "absent") to CONTINUE Case No. 13727 until
September 26, 1985 to allow the applicant to review the uses allowed
on the property.

Case No. 13728

Action Requested:

Special Exception - Section 410 - Principal Uses Permitted in
Residential Districts - Use Unit 1209 - Request an exception to
permit a mobile home in an RS-3 zoned district under the provisions
of Section 1680.

Variance - Section 440.6 - Special Exception Uses in Residential
Districts - Requirements - Use Unit 1209 - Request a variance of the
one year time limitation for a mobile home to permanently in an RS-3
zoned district under the provisions of Section 1670, located on the
NE/c of West 39th Street and South 27th West Avenue.

Presentation:
The applicant, William Wright, 147 South 34th West Avenue, Tulsa,
Oklahoma, asked the Board to allow him to park a mobile home on his
property. The applicant said that he purchased the lot approximately 3 years ago and had previously been before the Board
to get permission to put the mobile on the lot. Mr. Wright stated
that he was required to demolished the old house which was located
on the tract and then return with a request for permanent location
of the mobile home. He noted that he is now asking for that
permanent installment. Mr. Wright said that he intends to brick the
outside of the trailer and improve the property.

Protestants: None.

Comments and Questions:

Mr. Chappelle asked Mr. Wright if the mobile home is skirted. Mr.
Wright stated that he has the skirting, but has not installed it
until final inspections of the water lines are made.

Ms. Wilson asked the applicant if he is living in the mobile home at
this time. Mr. Wright stated that he will not move in until he has
a permit to leave the mobile on the lot permanently.

Ms. Bradley asked the applicant to address the hardship in this
case. Mr. Wright stated that he is upgrading the property and has
approval from all of his neighbors.

Mr. Jackere pointed out that the railroad is behind the property and
there are numerous types of zoning in the area.

9.12.85:447(9)
Case No. 13728 (continued)

Mr. Wright informed that he may use the mobile for rental property after the installation is complete.

Board Action:
On MOTION of CLUGSTON and SECOND by WHITE, the Board voted 5-0-0 (Bradley, Chappelle, Clugston, White, Wilson, "aye"; no "nays"; no "abstentions"; none, "absent") to APPROVE a Special Exception (Section 410 - Principal Uses Permitted in Residential Districts - Use Unit 1209) to permit a mobile home in an RS-3 zoned district under the provisions of Section 1680; and to APPROVE a Variance (Section 440.6 - Special Exception Uses in Residential Districts - Requirements - Use Unit 1209) of the one year time limitation for a mobile home to permanently in an RS-3 zoned district under the provisions of Section 1670; subject to skirting being installed; finding that a hardship demonstrated by multiple zoning in the area; finding that the mobile home would not be detrimental to the neighborhood and would be in harmony with the spirit and intent of the Code and the Comprehensive Plan; on the following described property:
Lot 5, Block 30, Original Townsite of Red Fork, City of Tulsa, Tulsa County, Oklahoma.

Case No. 13729

Action Requested:
Variance - Section 240.2(e) Permitted Yard Obstructions. Use Unit 1209 - Request a variance to permit 2 detached accessory buildings to total 960 sq. ft. and to locate one building in the side yard in an RS-3 zoned district.

Variance - Section 420.2(a) Accessory Use Conditions - Request a variance of the 3' setback from interior lines to 1', located at 3636 South Olympia.

Presentation:
The applicant, Donald Brannum, 3636 South Olympia, Tulsa, Oklahoma, submitted a plot plan (Exhibit E-1) for a proposed 20' by 36' garage.

Comments and Questions:
Ms. Bradley asked Mr. Brannum to explain the use of the new garage. He explained that it would be used for normal purposes.

Mr. Chappelle asked the applicant if he plans to conduct a business in the garage and he answered that he did not know.

Ms. White inquired if a business is being operated on the subject property at this time. The applicant replied that he is doing some upholstery work in a small existing building.

Good afternoon,

I am writing to provide comments on BOA-22873 which requests a special exception to allow a mobile home and extend the time allowed to permanent. I am not in favor of this exception as I believe this does not serve the long term vision of the community and the precedent this sets for future requests.

West Tulsa has been consistently looking for ways to improve the local neighborhoods as well as develop growth and capitalize on the proximity to Route 66. This vision seeks to improve and rejuvenate the historical homes in the area and a mobile home seems out of step with what the community as a whole is trying to achieve.

Additionally it is concerning to me that if this request is approved, it seems that it would be difficult to decline future requests like this and that would be very impactful to the overall identity and direction of the area.

We take a lot of pride and effort in maintaining and improving our property and believe this request, if approved, would be detrimental to our property value in the long run.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of an "Existing Neighborhood" and an "Area of Stability". An Existing Neighborhood is intended to preserve and enhance Tulsa's existing single-family neighborhoods. Development activities in these areas should be limited to the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects, as permitted through clear and objective setback, height, and other development standards of the zoning code.

The Areas of Stability include approximately 75% of the city's total parcels. Existing residential neighborhoods, where change is expected to be minimal, make up a large proportion of the Areas of Stability. The ideal for the Areas of Stability is to identify and maintain the valued character of an area while accommodating the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality.

Special Exception to allow a manufactured home in the RS-3 District; Special Exception to extend the one year time limit for the manufactured home (Section 401). **LOCATION:** 408 South 39th West Avenue (CD 1)

**Presentation:**
Vernon Clark, 401 South 39th West Avenue, Tulsa, OK; stated he and his wife are disabled and they need an affordable place to live.

Mr. White asked Mr. Clark the age of the trailer. Mr. Clark stated it is a 1975 Skyline and it has been painted recently.

**Interested Parties:**
Michael Simpson, 419 South 40th West Avenue, Tulsa, OK; stated that the neighbors have been trying real hard to clean up the neighborhood, and have been razing old houses. Where the trailer sits now there used to be an old house that was torn down. He can look out his back window and see the mobile home, and he thinks it takes away from the neighborhood. He believes his neighborhood is the forgotten part of Tulsa. He believes that if this request is approved it will be a step backward for the neighborhood. He understands what Mr. Clark is saying because he has been on disability most of his life, and he knows what it is like to try to make ends meet but for the neighborhood he feels this is a step backward.

Blendia Clark, 401 South 39th West Avenue, Tulsa, OK; stated her mother lives right across the road from the subject property, and her children live beside Mr. Simpson. She and her husband are trying to make things better.

Mr. Henke asked Ms. Clark how long they are asking to extend the time limit. Ms. Clark stated that they would accept whatever they can receive.

Variance--Section 440.6--Special Exception Uses in Residential Districts--Requirements--Request a variance of the one-year time limitation to permanently--mobile home is to be placed on a foundation; and a

Presentation:
The applicant, Shirley Sandridge, 446 South 40th West Avenue, informed the Board that the older home she lived in at this location was severely damaged by the Memorial Day Flood. She wants to clear the lot, but cannot afford to rebuild. She requested that she be allowed to place a mobile home on the property permanently. She informed that she lost everything in the flood and a mobile home is the only way she can afford a place to live. She submitted pictures (Exhibit E-1) and three plot plans (Exhibits E-2, E-3, and E-4). Also a floor plan was submitted (Exhibit E-5). A petition was submitted stating that the signatures would grant approval of a mobile home on the subject property (Exhibit E-6).

Mr. Smith asked Ms. Sandridge if the Building Inspector's office has given her a permit to allow the mobile home on the subject property. She informed that she has not talked to the Building Inspector. Mr. Smith informed her that the City does not allow rebuilding in a floodway and if the Board is inclined to approve this application, this will not be the last step she will go through to get the mobile home approved.

Ms. Purser asked Ms. Sandridge how close the neighbor's home is to the property line. She replied that the adjacent neighbor's home is 12' to 15' from the property line and she informed that the new carport will be no closer to the property line than the existing building.

Mr. Victor asked if setback relief would be needed for a porch. Mr. Gardner informed that there is no stipulation about how long or wide a deck must be, therefore, any motion could limit the deck to the existing building lines.

Mr. Victor asked Ms. Sandridge how wide the driveway will be. She informed that it will be approximately 11 feet.

Surrounding Properties: None

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of a "Mixed-Use Corridor" and an "Area of Growth".

Mixed-Use Corridors are Tulsa’s modern thoroughfares that pair high capacity transportation facilities with housing, commercial, and employment uses. Off the main travel route, land uses include multifamily housing, small lot, and townhouse developments, which step down intensities to integrate with single family neighborhoods. Mixed-Use Corridors usually have four or more travel lanes, and sometimes additional lanes dedicated for transit and bicycle use. The pedestrian realm includes sidewalks separated from traffic by street trees, medians, and parallel parking strips. Pedestrian crossings are designed so they are highly visible and make use of the shortest path across a street. Buildings along Mixed-Use Corridors include windows and storefronts along the sidewalk, with automobile parking generally located on the side or behind.

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

HEARING DATE: 03/24/2020 1:00 PM

APPLICANT: JR Donelson

ACTION REQUESTED: Variance of the Parking Area Design Standards to permit an existing gravel parking lot (Sec. 55.090)

LOCATION: 5866 S 107 AV E

PRESENT USE: Trailer Sales

RELEVANT PREVIOUS ACTIONS:

Subject Property: None

Surrounding Properties:

BOA-22886; This requesting is a pending Variance request for the same relief sought by the subject the applicant to be heard on 4/14/20. Staff anticipates more requests of this nature along 107th E Ave between E 56th St S and E 61st St S. City of Tulsa Code enforcement has issued several notices of violation along 107th that are in violation of Sec. 55.090.

BOA-18280; The Board approved a variance of the all-weather surfacing requirements for a period of 2 years ending 01.12.2001. Property locate approximately 1,200’ S of the SE/c of E 56th St S and S 107th E Ave.

BOA-14124: On 7.10.86 the Board approved a variance of the screening requirements and the off-street parking design standards. Property located 5845 S 107th E. Ave.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of an area of “Employment ” and an “Area of Growth”.

Employment areas contain office, warehousing, light manufacturing and high tech uses such as clean manufacturing or information technology. Sometimes big-box retail or warehouse retail clubs are found in these areas. These areas are distinguished from mixed-use centers in that they have few residences and typically have more extensive commercial activity. Employment areas require access to major arterials or interstates. Those areas, with manufacturing and warehousing uses must be able to accommodate extensive truck traffic, and rail in some instances. Due to the special transportation requirements of these districts, attention to design, screening and open space buffering
is necessary when employment districts are near other districts that include moderate residential use.

The purpose of **Areas of Growth** is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

**ANALYSIS OF SURROUNDING AREA:** The subject tract is located S of the SW/c of E 56th St S and S 107th E Ave.

**STAFF COMMENTS:** The applicant is requesting a **Variance** of the Parking Area Design Standards to permit an existing gravel parking lot (Sec. 55.090). This request would permit the existing gravel parking areas and drive lane that do not conform to the surfacing requirements, striping requirements of geometric standards for parking areas. A copy of Sec. 550.090 is included in your packets.
STATEMENT OF HARDSHIP:

City of Tulsa
Board of Adjustment

Re: JCPP Properties One, LLC at 5866 So. 107th E. Ave.

Request for Variance:
We have operated Hitch It Trailers at the above location since November 2014. The property had a gravel surface for parking automobiles and storage of cars in disrepair. We have cleaned and made great improvements to our property. During which time we have left the parking/storage surface to remain gravel. We have installed concrete in the business drive lanes from 107th E. Ave. The gravel area is used from the placement of our trailers.

The Golden Valley subdivision, located east of Highway 169 is zoned industrial with approximately 20 businesses. Many of these businesses were operating prior to the City of Tulsa paving 107th E. Ave. in 2015. To require our business and the other existing businesses in Golden Valley to comply with ‘All weather’ parking/driving surfaces is unrealistic. The City of Tulsa Zoning Code should have taken into consideration existing businesses such as ours when adopting a ‘All off-street parking areas must be surfaced with a dustless, all-weather surface’ policy.

Leaving our parking lot gravel will not adversely affect surrounding properties. The intended purpose of reducing dust can be achieved with our ‘Dust Abatement Program’ for our business. It is impractical for my existing business and my neighbors to close and install an ‘All Weather Surface’. The property to the west of this site is Highway 169, being 18 feet higher in elevation, the land to the east of our addition is a detention pond and neither is affected by any possible dust from our business. Granting the ‘Variance’ will not change the character of the addition. Granting the ‘Variance’ will in no way cause detriment to the public. Granting the ‘Variance’ will in no way impair the purpose of the zoning code or the comprehensive plan.

We respectfully request the City of Tulsa revisit the zoning code and consider changing the ‘All Weather paving requirement’ for existing ‘IL’ zoned properties in operation before the present zoning code was adopted.
SAMPLE MOTION:

Move to ________ (approve/deny) a Variance of the Parking Area Design Standards to permit an existing gravel parking lot (Sec. 55.090)

- Finding the hardship(s) to be______________________________.

- Per the Conceptual Plan(s) shown on page(s) _____ of the agenda packet.

- Subject to the following conditions ____________________________.

In granting the Variance the Board finds that the following facts, favorable to the property owner, have been established:

a. That the physical surroundings, shape, or topographical conditions of the subject property would result in unnecessary hardships or practical difficulties for the property owner, as distinguished from a mere inconvenience, if the strict letter of the regulations were carried out;

b. That literal enforcement of the subject zoning code provision is not necessary to achieve the provision’s intended purpose;

c. That the conditions leading to the need of the requested variance are unique to the subject property and not applicable, generally, to other property within the same zoning classification;

d. That the alleged practical difficulty or unnecessary hardship was not created or self-imposed by the current property owner;

e. That the variance to be granted is the minimum variance that will afford relief;

f. That the variance to be granted will not alter the essential character of the neighborhood in which the subject property is located, nor substantially or permanently impair use or development of adjacent property; and

g. That the variance to be granted will not cause substantial detriment to the public good or impair the purposes, spirit, and intent of this zoning code or the comprehensive plan.”

REvised 3/12/2020
3. Design
Off-site parking areas must comply with all applicable parking area design regulations of Section 55.090. Off-site parking proposed to take place on a newly constructed parking area must comply with the PK district lot and building regulations of §25.030-C.

4. Control of Off-Site Parking Area
The property to be occupied by the off-site parking facilities must be under the same ownership as the lot containing the use to be served by the parking. The off-site parking area may be under separate ownership only if an agreement is provided guaranteeing the long-term availability of the parking, commensurate with the use served by the parking. The agreement must be filed of record in the county clerk’s office of the county in which the property is located. Off-site parking privileges will continue in effect only as long as the agreement, binding on all parties, remains in force. If an off-site parking agreement lapses or is no longer valid, then parking must be provided as otherwise required by this chapter.

Section 55.090 Parking Area Design

55.090-A Applicability
The parking area design regulations of this section apply to all off-street parking lots for motor vehicles, whether containing required parking spaces or non-required parking spaces.

55.090-B Ingress and Egress
All parking areas must be designed to allow vehicles to enter and exit a street and cross public sidewalks in a forward motion, except that this requirement does not apply to lots with access on a minor street.

55.090-C Stall Size
Parking spaces must be at least 8.5 feet in width and 18 feet in length, exclusive of access drives and aisles. In parking areas where permanent wheel stops have been
installed, 2.5 feet of the parking space length (depth) beyond the wheel stop may be counted as part of the required stall length if that area is unobstructed and not part of another parking stall, drive aisle or sidewalk.

55.090-D Parking Area Layout (Geometrics)
Parking areas must be designed and marked in accordance with the dimensional standards of Table 55.5, which shows minimum dimensions for various parking layouts (angles). Requirements for layouts or angles not shown in Table 55.5 may be interpolated from the layouts shown, as approved by the development administrator.

55.090-E Tandem Parking
Tandem parking spaces may be used to satisfy parking requirements for household living uses when the spaces are assigned to the same dwelling unit. In all other cases parking spaces must be designed to allow each parking space to be accessed without passing through another parking space. Tandem parking arrangements must have a minimum stall of 8.5 feet and a minimum length of 36 feet.

Figure 55-6: Tandem Parking

55.090-F Surfacing
1. All off-street parking areas must be surfaced with a dustless, all-weather surface unless otherwise expressly stated in this zoning code. Pervious pavement or pervious pavement systems are allowed subject to the supplemental regulations of Section 55.090-F.4. Parking area surfacing must be completed prior to initiation of the use to be served by the parking.

2. All motorized vehicles designed for travel upon public streets and that are being parked, stored or displayed for sale must be parked, stored or displayed on dustless, all-weather surface. This surfacing requirement does not apply to junk or salvage yards. The board of adjustment is authorized to grant a special exception permitting the storage or display of motorized vehicles on a surface other than one consisting of a dustless, all-weather surface if the location complies with all applicable minimum building setbacks.

3. In RE and RS zoning districts, driveways serving residential dwelling units may not exceed 50% of the lot frontage or the following maximum widths, whichever is less, unless a greater width is approved in accordance with the special exception procedures of Section 70.120, or, if in a PUD, in accordance with the amendment procedures of Section 30.010-1.2, (Refer to the City of Tulsa Standard Specifications and Details for Residential Driveways #701-704).

[1] Maximum width applies to the composite of all driveways if multiple curb cuts are provided.
[2] Provided that for lot frontages less than 24 feet, a driveway up to 12 feet in width is permitted.
For approvals granted under the terms of the zoning code in effect prior to January 1, 2016, including (1) variances of maximum driveway coverage measured by width, square footage or percentage of yard and (2) establishment of PUD development standards that increase the maximum permitted driveway coverage measured by any such means, the foregoing maximums do not apply.

4. Pervious pavement or pervious pavement systems, including pervious asphalt, pervious concrete, modular pavers designed to funnel water between blocks, lattice or honeycomb shaped concrete grids with turf grass or gravel filled voids to funnel water, plastic geocells with turf grass or gravel, reinforced turf grass or gravel with overlaid or embedded meshes, resin-bound pervious pavement systems, or similar structured and durable systems are allowed as parking lot surfacing materials. Gravel, turf, or other materials that are not part of a structured system designed to manage stormwater are not considered pervious pavement or a pervious pavement system. Pervious pavement and pervious pavement systems must comply with the following:

a. Materials must be installed and maintained in accordance with all applicable city standards. Damaged areas must be promptly repaired. Gravel that has migrated from a pervious pavement system onto adjacent areas must be regularly swept and removed.

b. Accessible parking spaces and accessible routes from the accessible space to the principal structure or use served must comply with the building code.

c. Pervious pavement or pervious pavement systems are prohibited in areas used for the dispensing of gasoline or other liquid engine fuels or where other hazardous materials are used or stored.

d. Pervious asphalt, pervious concrete, or modular pavers may be used for drive aisles and driveways, but no other pervious pavement systems may be used in such areas unless expressly approved by the development administrator.

e. Pervious pavement or pervious pavement systems that utilize turf grass may not be used to meet minimum off-street parking requirements, but may be used for overflow parking spaces that are not used for required parking and that are not occupied on a daily or regular basis.

f. Pervious pavement or pervious pavement systems that utilize gravel with overlaid or embedded mesh or geocells may be used only in industrial zoning districts.

g. Parking areas with pervious pavement or pervious pavement systems must have the parking spaces marked as required by this chapter, except that pervious pavement systems that utilize gravel or turf may use alternative marking to indicate the location of the parking space, including markings at the end of spaces on the drive aisle or curbing, wheel stops, or concrete or paver strips in lieu of painted lines.

55.090-G Vertical Clearance
All parking spaces must have overhead vertical clearance of at least 7 feet.
Section 55.100 Stacking Spaces for Drive-through Facilities

55.100-A Spaces Required

55.100-B Dimensions
Each lane of stacking spaces must be at least 8 feet in width and at least 18 feet in length. Stacking lanes must be delineated with pavement markings.

55.100-C Location and Design
1. Stacking lanes must be located on the subject property. They may not be located within required driveways or drive aisles, parking spaces or loading areas and may not interfere with access to parking and ingress and egress from the street.
2. All areas associated with drive-through facilities, including drive-through signs, stacking lanes, trash receptacles, loudspeakers and service windows must be located to the rear or on the non-street-facing side of the property. Drive-through lanes must be set back at least 10 feet from abutting R- or AG-R-zoned lots, and a screening wall or fence must be provided along the common lot line in accordance with the F1 screening fence or wall standards of §55.070-C.

55.100-D Pedestrian Access

BULK AND AREA REQUIREMENTS IN THE INDUSTRIAL DISTRICTS – Use Unit 25; a waiver of the screening requirements, SECTION 1215.C. USE UNIT 15. OTHER TRADES AND SERVICES, Use Conditions and a Variance of the all-weather surface for parking. SECTION 1303.D. DESIGN STANDARDS FOR OFF-STREET PARKING AREAS, located N of NE/c E. 61st St. & S. 107th E. Ave.
Presentation:
The applicant, Alan Roark, of Roark Landscape Corporation, 3704 E. 28th St., submitted a site plan (M-1), stated that his company is in preparation of putting up a 40'x80' building structure to house both office and storage facilities. Mr. Roark pointed out that they have 159' of frontage along 107th Street and they want to turn the building around so that it is 80' long and there is not enough left over to meet the setback. To the north of the property is zoned commercial and behind that is residential but there are not any houses on the residentially zoned part. In the back is a detention facility and the south is zoned residentially. Mr. Roark would like a variance for the all-weather parking for a certain amount of time. It is their intention to pave the surface but because of a financial hardship they can not afford to do so at this time.

Comments and Questions:
Ms. Turnbo asked the applicant when he would be able to put in the all-weather surface pavement. Mr. Roark replied five years. Mr. White pointed out that they usually granted them for six months to one year.

Mr. Stump mentioned that to the east of this property is a stormwater detention facility, where there won't be any residences and this area is in transition to Industrial. Mr. Dunham mentioned that there are quite a few gravel drives in the immediate area.

Mr. Dunham suggested allowing the applicant 18 months to put in the gravel parking. Ms. Turnbo suggested allowing the applicant two years, taking into consideration the time to get a building permit.

Mr. Cooper does not see a hardship for the all-weather surface. It is a new building and it should be required. Mr. Cooper pointed out that the Board has sometimes allowed a nonprofit the opportunity to raise the money for the hard surface parking but this is a new business in a new building and the money should be factored into the cost of new building construction.

Interested Parties:
None.

Board Action:
On MOTION of COOPER, the Board voted 5-0-0 (Cooper, Dunham, Turnbo, Perkins, White "aye"; no "nays", no "abstentions"; "absent") to APPROVE Variance of the required 75’ setback from an R zoned district on the N, S and E, finding that it meets the requirements of Section 1607.C., SECTION 903. AND

On MOTION of COOPER, the Board voted 2-3-0 (Cooper, White "aye"; Dunham, Perkins, Turnbo "nays", no "abstentions"; no "absent") to and DENY a Variance of the all-weather surface for parking. SECTION 1303.D. DESIGN STANDARDS FOR OFF-STREET PARKING AREAS;

AND

On MOTION of TURNBO, the Board voted 3-2-0 (Dunham, Perkins, Turnbo "aye"; Cooper, White "nays", no "abstentions"; "absent") to and APPROVE a Variance of the all-weather surface for parking, finding that it meets the requirements of Section 1607.C., SECTION 1303.D. DESIGN STANDARDS FOR OFF-STREET PARKING AREAS for a period of two years, on the following described property:

Action Requested:
Special Exception for drive-in use within CS zoned property. SECTION 701.
PRINCIPAL USES PERMITTED IN COMMERCIAL DISTRICTS – Use Unit 18, located SW/c 59th St. & S. Lewis.

Presentation:
The applicant, Sack and Associates, Inc., 111 S. Elgin Ave., was represented by Ted A. Sack who stated that this property will be used for a Sonic Drive-in.

Comments and Questions:
Mr. White referred to Staff Comments while asking Mr. Sack about the 150' of frontage on a major arterial street. Mr. Sack responded that this has been a commercial site for a long time. They do have 203' of frontage on the collector street (59th Street) but in a drive-in restaurant it does say that it needs 150' of frontage on an arterial street and they only have 145'. They are going to readvertise for the frontage variance but would like approval today for the special exception.

BOA-11899; On 04.01.82 the Board approved a Special Exception to allow an outdoor recreational facility in a CS District.

BOA-22696; On 07.23.2019 the board approved a Special Exception to permit a wholesales and distribution use in a CS District. Property located 10131 East 21st Street South.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of a "Town Center" and an "Area of Growth".

Town Centers are medium-scale, one to five story mixed-use areas intended to serve a larger area of neighborhoods than Neighborhood Centers, with retail, dining, and services and employment. They can include apartments, condominiums, and townhouses with small lot single family homes at the edges. A Town Center also may contain offices that employ nearby residents. Town centers also serve as the main transit hub for surrounding neighborhoods and can include plazas and squares for markets and events. These are pedestrian-oriented centers designed so visitors can park once and walk to number of destinations.

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to
increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

ANALYSIS OF SURROUNDING AREA: The subject tract is located at the NW/c of S 101st E Ave and E 21st Street S.
