RELEVANT PREVIOUS ACTIONS: None.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of an "Existing Neighborhood" and an "Area of Stability".

An Existing Neighborhood is intended to preserve and enhance Tulsa's existing single-family neighborhoods. Development activities in these areas should be limited to the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects, as permitted through clear and objective setback, height, and other development standards of the zoning code.

The Areas of Stability include approximately 75% of the city's total parcels. Existing residential neighborhoods, where change is expected to be minimal, make up a large proportion of the Areas of Stability. The ideal for the Areas of Stability is to identify and maintain the valued character of an area while accommodating the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life.

ANALYSIS OF SURROUNDING AREA: The subject tract is Located East of the SE/c of E. 26th Street S. and South Lewis.

STAFF COMMENTS: The applicant is requesting Special Exception to increase the maximum driveway width, within the right-of-way and on the lot. (Section 55.090-F.3)
3. In RE and RS zoning districts, driveways serving residential dwelling units may not exceed 50% of the lot frontage or the following maximum widths, whichever is less, unless a greater width is approved in accordance with the special exception procedures of Section 70.120, or, if in a PUD, in accordance with the amendment procedures of Section 30.010-1.2. (Refer to the City of Tulsa Standard Specifications and Details for Residential Driveways #701-704).

[1] Maximum width applies to the composite of all driveways if multiple curb cuts are provided.
[2] Provided that for lot frontages less than 24 feet, a driveway up to 12 feet in width is permitted.

The driveway is limited to 27' within the right-of-way and 30' on the lot. The driveway has been installed without proper building permits or right-of-way permits.

**SAMPLE MOTION:**

Move to ________ (approve/deny) a Special Exception to increase the maximum driveway width, within the right-of-way and on the lot. (Section 55.090-F.3)

- Per the Conceptual Plan(s) shown on page(s) _____ of the agenda packet.

- Subject to the following conditions (including time limitation, if any):
  
  The Board finds that the requested Special Exception will be in harmony with the spirit and intent of the Code and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

Subject: driveway permit application at 2518 E. 26th St.

Charles, I received the revised driveway plan but unfortunately it still doesn't work. Here are the issues:

- The city zoning code says the total widths of all driveways inside the right of way cannot be more than 27'. The right of way (ROW) is measured 25' from the center of the street. Wherever that is in the yard, between that point and the street, the width of all driveways cannot be more than 27' total. Outside of the ROW, the total of all driveways cannot be wider than 30'. If the existing driveway is 26.7' at the curb, it can only be 0.3' (3 5/8'') wider. You really don’t have room for any more driveway inside the ROW. The only way to have a circle drive would be to reduce the existing driveway to 13.5' wide, have the other end of the driveway 13.5' wide, so your total width in the ROW would be 27'.

- If you want driveways that are more than 27' inside the ROW or 30' outside the ROW, you have to call INCOG at 584-7526 and get on their schedule to ask for the Board of Adjustment for a special exception to have wider driveways.

- Keep in mind you will still have to get a Right of Way permit to do any construction in the ROW. That is separate from this permit. If you get this zoning clearance permit resolved, you still have to get the other ROW permit.

- For any new plans you submit, show the ROW line on the property, which is 25' in from the center of the street.

STAFF COMMENTS: The applicant is requesting a Verification of the 1,000 spacing requirements for a medical marijuana dispensary from another medical marijuana dispensary (Section 40.225-D)

40.225-D A medical marijuana dispensary may not be located within 1,000 feet of another medical marijuana dispensary.

40.225f The separation distance required under Section 40.225-D must be measured in a straight line between the nearest perimeter walls of the buildings (or portion of the building, in the case of a multiple-tenant building) occupied by the dispensaries. The separation required under Section 40.225-D shall not be applied to limit the location of a medical marijuana dispensary for which a license was issued by the Oklahoma State Department of Health prior to December 1, 2018 for the particular location.

The applicant provided the location of the nearest dispensary as 3407 N. Lewis Ave, approximately 6,072 feet away.

SAMPLE MOTION:

I move that based upon the facts in this matter as they presently exist, we (accept/reject) the applicant's verification of spacing to permit a medical marijuana dispensary subject to the action of the Board being void should another medical marijuana dispensary be established prior to the establishment of this medical marijuana dispensary.

**INFORMATION ABOUT SUBMITTING REVISIONS**

Our review has identified the following code omissions or deficiencies in the project application forms, drawings, and/or specifications. The documents shall be revised to comply with the referenced code sections.

**REVISIONS NEED TO INCLUDE THE FOLLOWING:**

1. A copy of this deficiency letter
2. A written response as to how each review comment has been resolved
3. The completed revised/additional plans form
4. Board of Adjustment approval documents, if relevant

Revisions shall be submitted directly to the City of Tulsa Permit Center located at 175 East 2nd Street, Suite 450, Tulsa, Oklahoma 74103, phone (918) 596-9601. The City of Tulsa will assess a resubmittal fee. Do not submit revisions to the plans examiners.

*Submittals faxed / emailed to plans examiners will not be accepted.*

**IMPORTANT INFORMATION**

1. If a design professional is involved, his/her letters, sketches, drawings, etc. shall bear his/her Oklahoma seal with signature and date.

2. Submit two (2) sets of drawings if submitted using paper, or submit electronic revisions in "supporting documents", if originally submitted on-line, for revised or additional plans. Revisions shall be identified with clouds and revision marks.

3. Information about zoning code, Indian Nation Council of Government (INCOG), Board of Adjustment (BOA), and Tulsa Metropolitan Area Planning Commission (TMAPC) is available online at [www.incoq.org](http://www.incoq.org) or at INCOG offices at 2 W. 2nd St., 8th floor, Tulsa, OK, 74103, phone (918) 584-7526.

4. A copy of a "record search" is not included with this letter. Please present the "record search" along with this letter to INCOG staff at time of applying for board of adjustment action at INCOG. Upon approval by the board of adjustment, INCOG staff will provide the approval documents to you for immediate submittal to our office. (See revisions submittal procedure above.)

(continued)
Note: As provided for in Section 70.130 you may request the Board of Adjustment (BOA) to grant a variance from the terms of the Zoning Code requirements identified in the letter of deficiency below. Please direct all questions concerning separation distance acceptance and all questions regarding BOA application forms and fees to the INCOG BOA Planner at 918-584-7526. It is your responsibility to submit to our office documentation of any decisions by the BOA affecting the status of your application so we may continue to process your application. INCOG does not act as your legal or responsible agent in submitting documents to the City of Tulsa on your behalf. Staff review comments may sometimes identify compliance methods as provided in the Tulsa Zoning Code. The permit applicant is responsible for exploring all or any options available to address the noncompliance and submit the selected compliance option for review. Staff review makes neither representation nor recommendation as to any optimal method of code solution for the project.

1. Sec.40.225-D: A medical marijuana dispensary may not be located within 1000 feet of another medical marijuana dispensary.

2. Sec.40.225-H: The separation distance required under Sec.40.225-D must be measured in a straight line between the nearest perimeter walls of the buildings (or portion of the building, in the case of a multiple-tenant building) occupied by the dispensary.

Review comment: Submit a copy of the BOA accepted separation distance of 1000' from other dispensaries. Please direct all questions concerning separation distance acceptance and all questions regarding BOA application forms and fees to the INCOG BOA Planner at 918-584-7526.

Note: All references are to the City of Tulsa Zoning Code. Link to Zoning Code:

Please notify the reviewer via email when your revisions have been submitted

This letter of deficiencies covers Zoning plan review items only. You may receive additional letters from other disciplines such as Building or Water/Sewer/Drainage for items not addressed in this letter.

A hard copy of this letter is available upon request by the applicant.

STAFF COMMENTS: The applicant is requesting a Verification of the 1,000 spacing requirements for a medical marijuana dispensary from another medical marijuana dispensary (Section 40.225-D)

40.225-D A medical marijuana dispensary may not be located within 1,000 feet of another medical marijuana dispensary.

40.225-I The separation distance required under Section 40.225-D must be measured in a straight line between the nearest perimeter walls of the buildings (or portion of the building, in the case of a multiple-tenant building) occupied by the dispensaries. The separation required under Section 40.225-D shall not be applied to limit the location of a medical marijuana dispensary for which a license was issued by the Oklahoma State Department of Health prior to December 1, 2018 for the particular location.

The applicant provided the nearest dispensary as Verde located 3920 S. Sheridan, which is 1,006.1 ft away. Below is a map created by INOCG staff finding the distance to be 1,005 ft which is still compliant with the Zoning Code. This map was prepared because the standard radius map prepared was not detailed enough for this determination to be made.

BOA-22881: On March 24th the Board accepted a verification of spacing for a medical marijuana dispensary located 6125 East 31st. The proposed dispensary received the Certificate of Occupancy on March 25th, 2020. A copy of this certificate is included in your packet. The subject location is within 1,000 feet of the dispensary located at 6125 East 31st as demonstrated on the exhibit below. The Applicant was made aware of this information and they chose to continue with their application.
**STAFF COMMENTS:** The applicant is requesting a *Verification* of the 1,000 spacing requirements for a medical marijuana dispensary from another medical marijuana dispensary (Section 40.225-D)

40.225-D A medical marijuana dispensary may not be located within 1,000 feet of another medical marijuana dispensary.

40.225-1 The separation distance required under Section 40.225-D must be measured in a straight line between the nearest perimeter walls of the buildings (or portion of the building, in the case of a multiple-tenant building) occupied by the dispensaries. The separation required under Section 40.225-D shall not be applied to limit the location of a medical marijuana dispensary for which a license was issued by the Oklahoma State Department of Health prior to December 1, 2018 for the particular location.

The applicant provided the nearest dispensary as T-Town Dispensary, located 3524 S. Sheridan.

**SAMPLE MOTION:**

I move that based upon the facts in this matter as they presently exist, we *(accept/reject)* the applicant's verification of spacing to permit a medical marijuana dispensary subject to the action of the Board being void should another medical marijuana dispensary be established prior to the establishment of this medical marijuana dispensary.

BOA-22862: On 02.25.20 the board accepted a verification of spacing for an Off-Premise Outdoor Advertising sign with Dynamic Display (sec. 60.100-J). The existing sign in BOA-22862 which is a trivision sign, which permitting has deemed to be a dynamic display sign, is within 1,200 feet of the subject sign. The subject sign in BOA-22862 has received their sign permit since the acceptance of their spacing. The signs are located 773 feet apart according to the survey provided by the applicant.
**STAFF COMMENTS:** The applicant is requesting Verification of the spacing requirement for an outdoor advertising sign with a Dynamic Display (Sec 60.100-K)

60.100-K Except as provided in §60.100-J, any outdoor advertising sign that includes a dynamic display and that was approved by a permit issued on or after January 1, 2009, must be separated by a minimum distance of 1,200 feet from any other outdoor advertising sign that includes a dynamic display facing the same traveled way. The 1,200-foot distance must be measured in a straight line from the center of the subject sign structures, as located on the ground.

**SAMPLE MOTION:**
I move that based upon the facts in this matter as they presently exist, we approve the applicant's verification of spacing between dynamic display (digital) outdoor advertising signs subject to the action of the Board being void should another outdoor advertising sign or conflicting use be constructed prior to this sign.

Application No. SIGN-055101-2020 10102 E. Broken Arrow Exp. March 13, 2020

This letter of deficiencies covers Sign Plan Review items only.

For ground, monument, pole & outdoor advertising structure sign applications only, you may receive additional letters from other disciplines such as Water/Sewer/Drainage for additional deficiencies regarding Utility Easement placement which are not addressed in this letter.

Section 60.100 K Dynamic Displays
Except as provided in §60.100-J, any outdoor advertising sign that includes a dynamic display and that was approved by a permit issued on or after January 1, 2009, must be separated by a minimum distance of 1,200 feet from any other outdoor advertising sign that includes a dynamic display facing the same traveled way. The 1,200-foot distance must be measured in a straight line from the center of the subject sign structures, as located on the ground.

Review Comments: Converting a conventional outdoor advertising sign to a dynamic display outdoor advertising sign requires a 1,200 foot spacing verification from the BOA per section 70.110 from any digital outdoor advertising sign facing the same traveled way. In addition, the proposed dynamic display outdoor advertising sign appears to be closer than 1,200 feet to a previously permitted outdoor advertising sign with a dynamic display facing the same traveled way. As an option, you may pursue a variance from the BOA to allow an outdoor advertising sign with a dynamic display to be closer than the 1,200 feet spacing requirement of 60.100 K.

NOTE: Please direct all questions concerning variances, special exceptions, appeals of an administrative official, Planned Unit Developments (PUD), Corridor (CO) zoned districts, zoning changes, spacing verifications, plating, lot splits, lot combinations, alternative compliance landscape plans and all questions regarding (BOA) or (TMAPC) application forms and fees to an INCOG representative at 584-7526. It is your responsibility to send the decision of any actions by the BOA or TMAPC affecting the status of your application for a Sign Permit to our office so we may continue to process your application. STAFF COMMENTS: The applicant is requesting Verification of the spacing requirement for a package store from blood banks, plasma centers, day labor hiring centers, bail bond offices, pawn shops, and other liquor stores (Section 40.300-A&B)

In the supplemental use regulations of this section apply to all plasma centers, day labor hiring centers, package stores, bail bond offices and pawn shops.

40.300-A Plasma centers, day labor hiring centers, package stores, bail bond offices and pawn shops must be separated by a minimum distance of 300 feet, provided that bail bond offices located within the CBD district are not subject to this separation requirement.

40.300-B For uses established after July 1, 2001, the separation distance requirement of §40.300:A must be measured in a straight line from the nearest perimeter wall of the portion of the building occupied by one of the subject uses to the nearest perimeter wall of the portion of the building of any other subject use.

Included in your packet is an inventory of the uses within 300’ of the subject property. The proposed package store is moving to the subject site from an adjacent piece of property.

SAMPLE MOTION:

I move that based upon the facts in this matter as they presently exist, we accept the applicant's verification of spacing to permit the package store subject to the action of the Board being void should another package store or other conflicting use be established prior to the establishment of this package store.

Suggested condition: The Board should note that the existing package store within 300’ of the proposed package store must be closed prior to the subject package store opening for business.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of an "Existing Neighborhood" and an "Area of Stability".

An Existing Neighborhood is intended to preserve and enhance Tulsa's existing single-family neighborhoods. Development activities in these areas should be limited to the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects, as permitted through clear and objective setback, height, and other development standards of the zoning code.

The Areas of Stability include approximately 75% of the city's total parcels. Existing residential neighborhoods, where change is expected to be minimal, make up a large proportion of the Areas of Stability. The ideal for the Areas of Stability is to identify and maintain the valued character of an area while accommodating the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life.

ANALYSIS OF SURROUNDING AREA: The subject tract is located South of the SE/c of S. Darlington Ave. and E. 21st Pl.

STAFF COMMENTS: The applicant is requesting a Variance to allow more than 25% coverage in the rear setback for a detached accessory building in an RS-2 District (90.090-C.2, Table 90-2)

15.2

REVISED 4/16/2020
The applicant is proposing covering 700 sf in the rear setback and per the code they are limited to 469 sf.

**STATEMENT OF HARDSHIP:** Not provided on application has been requested by staff.

**SAMPLE MOTION:** Move to ________ (approve/deny) a Variance to allow more than 25% coverage in the rear setback for a detached accessory building in an RS-2 District (90.090-C.2, Table 90-2)

- Finding the hardship(s) to be ____________________________.
- Per the Conceptual Plan(s) shown on page(s) ______ of the agenda packet.
- Subject to the following conditions ____________________________.

In granting the Variance the Board finds that the following facts, favorable to the property owner, have been established:

a. That the physical surroundings, shape, or topographical conditions of the subject property would result in unnecessary hardships or practical difficulties for the property owner, as distinguished from a mere inconvenience, if the strict letter of the regulations were carried out;

b. That literal enforcement of the subject zoning code provision is not necessary to achieve the provision's intended purpose;

c. That the conditions leading to the need of the requested variance are unique to the subject property and not applicable, generally, to other property within the same zoning classification;

d. That the alleged practical difficulty or unnecessary hardship was not created or self-imposed by the current property owner;

e. That the variance to be granted is the minimum variance that will afford relief;

f. That the variance to be granted will not alter the essential character of the neighborhood in which the subject property is located, nor substantially or permanently impair use or development of adjacent property; and

g. That the variance to be granted will not cause substantial detriment to the public good or impair the purposes, spirit, and intent of this zoning code or the comprehensive plan.”

### Information About Submitting Revisions

Our review has identified the following code omissions or deficiencies in the project application forms, drawings, and/or specifications. The documents shall be revised to comply with the referenced code sections.

**Revisions Need to Include the Following:**

1. A copy of this deficiency letter
2. A written response as to how each review comment has been resolved
3. The completed revised/additional plans form (see attached)
4. Board of Adjustment Approval Documents, if relevant

Revisions shall be submitted directly to the City of Tulsa Permit Center located at 175 East 2nd Street, Suite 450, Tulsa, Oklahoma 74103, phone (918) 596-9601. The city of Tulsa will assess a resubmittal fee. Do not submit revisions to the plans examiners.

**Submittals faxed / emailed to plans examiners will not be accepted.**

### Important Information

1. Submit two (2) sets [4 sets if health department review is required] of revised or additional plans. Revisions shall be identified with clouds and revision marks.

2. Information about zoning code, Indian Nation Council of Government (INCOG), Board of Adjustment (BOA), and Tulsa Metropolitan Area Planning Commission (TMAPC) is available online at [www.in cog.org](http://www.in cog.org) or at INCOG offices at 2 W. 2nd St., 8th Floor, Tulsa, OK, 74103, phone (918) 584-7526.

3. A copy of a "Record Search" is included with this letter. Please present the "Record Search" along with this letter to INCOG staff at time of applying for Board of Adjustment action at INCOG. Upon approval by the Board of Adjustment, INCOG staff will provide the approval documents to you for immediate submittal to our office. (See revisions submittal procedure above.).

(continued)
Note: As provided for in Section 70.130 you may request the Board of Adjustment to grant a variance from the terms of the Zoning Code requirements identified in the letter of deficiency below. Please direct all questions concerning variances, special exceptions, appeals of an administrative official decision, Master Plan Developments Districts (MPD), Planned Unit Developments (PUD), Corridor (CO) zoned districts, zoning changes, platting, lot splits, lot combinations, alternative compliance landscape and screening plans and all questions regarding (BOA) or (TMAPC) application forms and fees to an INCOG representative at 584-7526. It is your responsibility to submit to our offices documentation of any appeal decisions by an authorized decision making body affecting the status of your application so we may continue to process your application. INCOG does not act as your legal or responsible agent in submitting documents to the City of Tulsa on your behalf.

Staff review comments may sometimes identify compliance methods as provided in the Tulsa Zoning Code. The permit applicant is responsible for exploring all or any options available to address the noncompliance and submit the selected compliance option for review. Staff review makes neither representation nor recommendation as to any optimal method of code solution for the project.

90.090-C.2 Detached Accessory Buildings
   a. Detached accessory buildings may be located in rear setbacks in RE, RS and RD districts, provided that:

(2) Building coverage in the rear setback does not exceed the maximum limits established in Table 90-2;

Review Comments:

#2. This lot is zoned RS-2. The rear setback is defined as the minimum distance set out by the zoning code of open unoccupied space between the rear lot line and the required rear setback (in your case, 25 feet from the rear property line). A maximum 25% area can be covered by the accessory building; (75X 25’ X 25%) allows 469 sq ft of coverage. You are proposing 700 sq ft of coverage in the rear setback. Revise your plans to show compliance or apply to BOA for a variance to allow more than 25% coverage in the rear setback.

This letter of deficiencies covers Zoning plan review items only. You may receive additional letters from other disciplines such as Building or Water/Sewer/Drainage for items not addressed in this letter. A hard copy of this letter is available upon request by the applicant.

Please Notify Plans Examiner By Email When You Have Submitted A Revision. If you originally submit paper plans, revisions must be submitted as paper plans. If you submit online, revisions must be submitted online.

BOA-14688: On 12.17.87 the Board granted a variance to permit an accessory building in the side yard property located 7804 S. 74th W. Ave.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of an "Existing Neighborhood" and an "Area of Stability".

An Existing Neighborhood is intended to preserve and enhance Tulsa’s existing single-family neighborhoods. Development activities in these areas should be limited to the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects, as permitted through clear and objective setback, height, and other development standards of the zoning code.

The Areas of Stability include approximately 75% of the city's total parcels. Existing residential neighborhoods, where change is expected to be minimal, make up a large proportion of the Areas of Stability. The ideal for the Areas of Stability is to identify and maintain the valued character of an area while accommodating the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life. SECTIONS REFERENCED BELOW ARE FROM THE CITY OF TULSA ZONING CODE TITLE 42 AND CAN BE VIEWED AT

Application No. BLDR-53810-2020

Note: As provided for in Section 70.130 you may request the Board of Adjustment to grant a variance from the terms of the Zoning Code requirements identified in the letter of deficiency below. Please direct all questions concerning variances, special exceptions, appeals of an administrative official decision, Master Plan Developments Districts (MPD), Planned Unit Developments (PUD), Corridor (CO) zoned districts, zoning changes, platting, lot splits, lot combinations, alternative compliance landscape and screening plans and all questions regarding (BOA) or (TMAPC) application forms and fees to an INCOG representative at 584-7526. It is your responsibility to submit to our offices documentation of any appeal decisions by an authorized decision making body affecting the status of your application so we may continue to process your application. INCOG does not act as your legal or responsible agent in submitting documents to the City of Tulsa on your behalf. Staff review comments may sometimes identify compliance methods as provided in the Tulsa Zoning Code. The permit applicant is responsible for exploring all or any options available to address the noncompliance and submit the selected compliance option for review. Staff review makes neither representation nor recommendation as to any optimal method of code solution for the project.

1. 45.030-B RS-2, RS-3, RS-4, RS-5 or RM Districts
   In RS-2, RS-3, RS-4 and RS-5 districts, the total aggregate floor area of all detached accessory buildings and accessory buildings not erected as an integral part of the principal residential building may not exceed 500 square feet or 40% of the floor area of the principal residential structure, whichever is greater.

   Review comments: You are proposing 2000 sq ft of detached accessory structure floor area. The proposed detached structure exceeds 500 sq ft and 40% of the size of your house. Based on the size of your house (3889) you are allowed 1555 sq ft of detached accessory structures floor area on your lot. Reduce the size of your proposed detached accessory structure to be less than 1555 sq ft of total floor area or apply to BOA for a variance to allow a detached accessory structure to exceed 40% of the floor area of the principal residential structure.

2. 90.90.C: Detached Accessory Buildings
   a. Detached accessory buildings may be located in rear setbacks in RE, RS and RD districts, provided that:
      (1) The building does not exceed one story or 18 feet in height and is not more than 10 feet in height to the top of the top plate; and
      (2) Building coverage in the rear setback does not exceed the maximum limits established in Table 90-2:

   Review Comments: Revise plans to indicate that the detached accessory building will not exceed one story or 18 feet in height and is not more than 10 feet in height to the top of the top plate or apply to the BOA for a variance to allow an accessory structure to exceed 18 feet in height and exceed 10 feet in height to the top of the top plate.

3. 90.090-C Permitted Setback Obstructions in R Zoning Districts
   Setbacks in R zoning districts must be unobstructed and unoccupied from the ground to the sky except as indicated in Table 90-1.

   Review Comments: Detached accessory buildings in an RS-3 zoned lot are not allowed in the street setback which is the first 25' feet of your lot. Revise your site plan to indicate compliance with the 25' front setback or apply to INCOG for a variance to allow a detached accessory building in the street setback.
4. **55.090-F Surfacing.** All off-street parking areas must be surfaced with a dustless, all-weather surface unless otherwise expressly stated in this zoning code. Pervious pavement or pervious pavement systems are allowed subject to the supplemental regulations of §55.090-F4. Parking area surfacing must be completed prior to initiation of the use to be served by the parking.

**Review Comments:** Provide a dustless all-weather parking surface from the public street to the proposed garage or apply to the Board of Adjustment for a Variance (section 70.120) to allow a material other than an approved material meeting the requirements of 55.090-F.

This letter of deficiencies covers Zoning plan review items only. You may receive additional letters from other disciplines such as Building or Water/Sewer/Drainage for Items not addressed in this letter. A hard copy of this letter is available upon request by the applicant.

Said tract of land containing 1.478 acres, or 64,382 square feet, more or less.

Relevant Previous Actions: None.

Relationship to the Comprehensive Plan: The Tulsa Comprehensive Plan identifies the subject property as part of a "Main Street" and an "Area of Growth".

Main Streets are Tulsa's classic linear centers. They are comprised of residential, commercial, and entertainment uses along a transit-rich street usually two to four lanes wide and includes much lower intensity residential neighborhoods situated behind. Main Streets are pedestrian-oriented places with generous sidewalks, storefronts on the ground floor of buildings, and street trees and other amenities. Visitors from outside the surrounding neighborhoods can travel to Main Streets by bike, transit, or car. Parking is provided on street, small private off street lots, or in shared lots or structures.

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.
ANALYSIS OF SURROUNDING AREA: The subject tract is located South of the SW/c of E. Archer and S. Lewis Ave.

STAFF COMMENTS: The applicant is requesting Variance to have the required 35' building setback along N. Lewis Ave and E. Admiral Place reduced to 10' (Sec. 5.030, Table 5-3) and a Variance to reduce the required 25' building setback on N. Gillette Ave to 10' (Sec. 5.030, Table 15-3)

STATEMENT OF HARDSHIP: Use category RM-1 requires a 35-foot setback at arterial streets and a 25-foot setback at other streets. This would create a disconnected feel in Kendal Whittier neighborhood. A 10-foot setback would be more consistent with the walkable feel of the Kendal Whittier neighborhood.

SAMPLE MOTION: Move to _________ (approve/deny) a Variance to have the required 35' building setback along N. Lewis Ave and E. Admiral Place reduced to 10' (Sec. 5.030, Table 5-3). Variance to reduce the required 25' building setback on N. Gillette Ave to 10' (Sec. 5.030, Table 5-3)

a. That the physical surroundings, shape, or topographical conditions of the subject property would result in unnecessary hardships or practical difficulties for the property owner, as distinguished from a mere inconvenience, if the strict letter of the regulations were carried out;

b. That literal enforcement of the subject zoning code provision is not necessary to achieve the provision’s intended purpose;

c. That the conditions leading to the need of the requested variance are unique to the subject property and not applicable, generally, to other property within the same zoning classification;

LEGAL DESCRIPTION: LOT 1 BLOCK 10, CROSSING AT BATTLE CREEK PHASE II BLOCKS 7-13

RELEVANT PREVIOUS ACTIONS: None.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of a "New Neighborhood" and an "Area of Growth".

The New Neighborhood designation is intended for new communities developed on vacant land. These neighborhoods are comprised primarily of single-family homes on a range of lot sizes but can include townhouses and low-rise apartments or condominiums. These areas should be designed to meet high standards of internal and external connectivity and shall be paired with an existing or new Neighborhood or Town Center.

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

ANALYSIS OF SURROUNDING AREA: The subject tract is located at the NE/c of E 38th St. S. and S. 152nd E. Ave.

STAFF COMMENTS: The applicant is requesting Special Exception to increase the maximum driveway width within the right-of-way and inside the street setback. (Section 55.090-F.3)
In RE and RS zoning districts, driveways serving residential dwelling units may not exceed 50% of the lot frontage or the following maximum widths, whichever is less, unless a greater width is approved in accordance with the special exception procedures of Section 70.120, or, if in a PUD, in accordance with the amendment procedures of Section 30.010-1.2. [1] Maximum width applies to the composite of all driveways if multiple curb cuts are provided.
[2] Provided that for lot frontages less than 24 feet, a driveway up to 12 feet in width is permitted.

The aggregate width including the expansion appears to bring the total width of the driveway on the lot to 36'. Originally the application was noticed to include the width of the driveway inside the right-of-way, but the applicant confirmed they are not planning on increasing the size of the curb-cut.

**SAMPLE MOTION:**

Move to ________ (approve/deny) a **Special Exception** to increase the maximum driveway width, within the right-of-way and inside the street setback. (Section 55.090-F.3)

- Per the Conceptual Plan(s) shown on page(s) _____ of the agenda packet.
- Subject to the following conditions (including time limitation, if any):

The Board finds that the requested Special Exception will be in harmony with the spirit and intent of the Code and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

55.090-F3 Surfacing. In RE and RS zoning districts, driveways serving residential dwelling units may not exceed the following maximum widths unless a greater width is approved in accordance with the special exception procedures of Section 70.120. Maximum Driveway Width allowed is 30' on your lot.

Review Comments: The submitted site plan proposes a driveway width of more than 30' in width on the lot in the street setback which exceeds the maximum allowable driveway width on this lot. Revise plans to indicate the driveway shall not exceed the maximum allowable width or apply to the BOA for a special exception for the proposed driveway width on this lot.

RELEVANT PREVIOUS ACTIONS:
Subject Property:

BOA-22840; On 4/15/20 the Land Use Administrator approved an Administrative Adjustment to reduce the required 5’ side yard setback to 4’.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of an “Existing Neighborhood” and an “Area of Growth”.

An Existing Neighborhood is intended to preserve and enhance Tulsa’s existing single-family neighborhoods. Development activities in these areas should be limited to the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects, as permitted through clear and objective setback, height, and other development standards of the zoning code.

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

ANALYSIS OF SURROUNDING AREA: The subject tract is located South of the SE/c of N. Wheeling Ave. and East Haskell Street.

STAFF COMMENTS: The applicant is requesting Variance to reduce the required 25 foot Street setback in an RM-1 District (Sec. 5.030, Table 5-3)

- Per the Conceptual Plan(s) shown on page(s) ______ of the agenda packet.
- Subject to the following conditions ________________________________.

In granting the Variance, the Board finds that the following facts, favorable to the property owner, have been established:

a. That the physical surroundings, shape, or topographical conditions of the subject property would result in unnecessary hardships or practical difficulties for the property owner, as distinguished from a mere inconvenience, if the strict letter of the regulations were carried out;

b. That literal enforcement of the subject zoning code provision is not necessary to achieve the provision’s intended purpose;

c. That the conditions leading to the need of the requested variance are unique to the subject property and not applicable, generally, to other property within the same zoning classification;

d. That the alleged practical difficulty or unnecessary hardship was not created or self-imposed by the current property owner;

e. That the variance to be granted is the minimum variance that will afford relief;

f. That the variance to be granted will not alter the essential character of the neighborhood in which the subject property is located, nor substantially or permanently impair use or development of adjacent property; and

g. That the variance to be granted will not cause substantial detriment to the public good or impair the purposes, spirit, and intent of this zoning code or the comprehensive plan.”

1. **5.030-A : Setback(s) (Residential):** In the RM-1 zoned district the minimum street setback shall be 25 feet from the front property line, or measured from the centerline of the abutting street add to the setback distance ½ the right-of-way (ROW) designated on the major street plan.

   **Review Comments:** Revise your plans to indicate a 25’ front setback to the property line and a 55’ setback from the center of Wheeling street to the proposed covered porch, or apply to INCOG for a variance to allow less than a 25’ front setback or 55’ from center of street.

2. **70.100-B Authorized Administrative Adjustments**

   1. Administrative adjustments may be granted only as expressly identified in this section.

   **b.** The land use administrator is authorized to grant an administrative adjustment reducing minimum required side and rear setbacks in any R district by up to 20%.

   **5.030-A:** In the RM-1 zoned district the minimum side yard setback shall be 5 feet from the property line.

   **Review Comments:** Revise your plans to indicate a 5’ side setback to the property line, or apply to INCOG for an administrative adjustment to reduce the side setback to allow less than a 5’ side setback.

RELEVANT PREVIOUS ACTIONS: None.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of a "Town Center" and an "Area of Growth".

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

Town Centers are medium-scale, one to five story mixed-use areas intended to serve a larger area of neighborhoods than Neighborhood Centers, with retail, dining, and services and employment. They can include apartments, condominiums, and townhouses with small lot single family homes at the edges. A Town Center also may contain offices that employ nearby residents. Town centers also serve as the main transit hub for surrounding neighborhoods and can include plazas and squares for markets and events. These are pedestrian-oriented centers designed so visitors can park once and walk to number of destinations.

ANALYSIS OF SURROUNDING AREA: The subject tract is located East of Highway-169 along eats Admiral Place.

STAFF COMMENTS: The applicant is requesting Special Exception to allow a fence to exceed 4’ in height in a front street setback (45.080-A) and a Variance to permit a structure in the City of Tulsa right-of-way or planned right-of-way along E. Admiral Pl. (5.030-A, Table 5-3, Sec. 90.090-A).

REVISED 4/15/2020
Section 45.080   Fences and Walls

45.080-A Fences and walls within required building setbacks may not exceed 8 feet in height, except that in required street setbacks fences and walls may not exceed 4 feet in height. However, in R zoned districts, fences up to 8 feet in height are permitted in side street setbacks of detached houses or duplexes located on corner lots and in street setbacks abutting the rear lot line of houses or duplexes located on double frontage lots. The board of adjustment is authorized to modify these fence and wall regulations in accordance with the special exception procedures of Section 70.120.

Section 90.090   Setbacks

90.090-A Measurement

Required setbacks are measured from the applicable lot line, right-of-way, planned right-of-way or location referred to below. Building setbacks are measured to the nearest exterior building wall. Minimum setbacks that apply to other features (parking areas, fences, storage areas) are measured from the nearest point of the area or feature for which a setback is required. See 59.200-C for information on structures and building features that are allowed to occupy setback and yard areas in R zoning districts. Unless otherwise expressly stated, no part of any structure may be located within the street right-of-way, nor within the planned right-of-way of streets shown on the major street and highway plan, nor within 25 feet of the centerline of the right-of-way on streets not shown on the major street and highway plan. If a variance of the prohibition against location of a structure within the right of way or planned right of way is granted by the Board of Adjustment, no part of any structure may be located within the street right-of-way, nor within the planned right-of-way of streets shown on the major street and highway plan, nor within 25 feet of the centerline of the right-of-way on streets not shown on the major street and highway plan, unless a license has been granted by the city, in the case of the right-of-way, or a removal agreement has been entered into, in the case of the planned right-of-way.

Reference: Application # ZCO-54160-2020
Subject: Property Address: 10623 East Admiral Pl Tulsa, OK 74116

To whom it may concern,

I am writing this letter on behalf of my client who currently resides at 10623 East Admiral Place in Tulsa, OK. He lives there with his wife and three (3) month old child. The property is zoned as a Shopping Center District (CS) which has regulations that differ from that of Residential.

My client began building a fence at the front of his property in line with his West neighbor’s fence which also runs just South of the existing signage that was mounted in his front yard. My client has daily and evening trespassers on his property who travel by foot across his property and he is concerned for his family’s safety, therefore he decided to build the fence. He was stopped by a City Inspector and informed that the fence was in the right of way and would need to obtain a permit. My client has halted all work while resolving the issue. The fence is constructed with stone/concrete columns at five (5) feet in height with aluminum chain link spanning between. Two columns setback closer to the residence on either side of the driveway and are connected to the fence line with a curved concrete/stone wall. We understand that the referenced property shall not have the fence height measured from grade exceeding four (4) feet per the LOD. We also understand per section of 90.170-A of the Tulsa Zoning Code that the fence post may exceed the height of the highest connection portion of the fence by up to twelve (12) inches.

My client submitted an application to the City and received a LOD for application number ZCO-54160-2020 which identifies the areas of deficiency. We have submitted the License Agreement Application to Mr. Kovac as recommended. The intent of this application is to ask that my client be allowed to keep the fence in its current location. In addition, my client asks that the fence be allowed to have the height be five (5) feet as he is concerned that four (4) feet is inadequate to keep trespassers out. My client asks if you will take into consideration that his West neighbor’s fence is 6ft high and resides in the similar placement along the right of way.

We have provided pictures for your use. Finally, my client apologizes for not following proper procedure from the beginning. He was unaware of the process and promptly contacted me to
assist in rectifying the error. If you have any questions or would like to discuss this request in person, please feel free to call me 918.378.9293.

An Existing Neighborhood is intended to preserve and enhance Tulsa's existing single-family neighborhoods. Development activities in these areas should be limited to the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects, as permitted through clear and objective setback, height, and other development standards of the zoning code.

The Areas of Stability include approximately 75% of the city's total parcels. Existing residential neighborhoods, where change is expected to be minimal, make up a large proportion of the Areas of Stability. The ideal for the Areas of Stability is to identify and maintain the valued character of an area while accommodating the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life.

ANALYSIS OF SURROUNDING AREA: The subject tract is located West of the SW/c of E 37th St. S. and S. Garnett Road.

STAFF COMMENTS: The applicant is requesting Special Exception to increase the maximum driveway width, within the right-of-way and inside the street setback. (Section 55.090-F.3)
SAMPLE MOTION:

Move to ________ (approve/deny) a Special Exception to increase the maximum driveway width, within the right-of-way and inside the street setback. (Section 55.090-F.3)

- Per the Conceptual Plan(s) shown on page(s) ______ of the agenda packet.

- Subject to the following conditions (including time limitation, if any):

  ________________________________________________________________

The Board finds that the requested Special Exception will be in harmony with the spirit and intent of the Code and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

**REVIEW COMMENTS**

Application No.  ZCO- 54702-2020

Note: As provided for in Section 70.130 you may request the Board of Adjustment to grant a variance from the terms of the Zoning Code requirements identified in the letter of deficiency below. Please direct all questions concerning variances, special exceptions, appeals of an administrative official decision, Master Plan Developments Districts (MPD), Planned Unit Developments (PUD), Corridor (CO) zoned districts, zoning changes, platting, lot splits, lot combinations, alternative compliance landscape and screening plans and all questions regarding (BOA) or (TMAPC) application forms and fees to an INCOG representative at 584-7526. It is your responsibility to submit to our offices documentation of any appeal decisions by an authorized decision making body affecting the status of your application so we may continue to process your application. INCOG does not act as your legal or responsible agent in submitting documents to the City of Tulsa on your behalf.

Staff review comments may sometimes identify compliance methods as provided in the Tulsa Zoning Code. The permit applicant is responsible for exploring all or any options available to address the noncompliance and submit the selected compliance option for review. Staff review makes neither representation nor recommendation as to any optimal method of code solution for the project.

**55.090-F3 Surfacing.** In RE and RS zoning districts, driveways serving residential dwelling units may not exceed the following maximum widths unless a greater width is approved in accordance with the special exception procedures of Section 70.120. Maximum Driveway Width is 26' within ROW and 30' outside of ROW on your lot.

**Review Comments:** The submitted site plan proposes a driveway width of more than 30' in width on the lot in the street setback and more than 26' wide in ROW which exceeds the maximum allowable driveway widths both within and outside of the ROW. Revise plans to indicate the driveway shall not exceed the maximum allowable widths in the table or apply to the BOA for a special exception, one for the proposed driveway width within the ROW and also for the proposed driveway width outside of the ROW.

---

This letter of deficiencies covers Zoning plan review items only. You may receive additional letters from other disciplines such as Building or Water/Sewer/Drainage for items not addressed in this letter. A hard copy of this letter is available upon request by the applicant.

Please Notify Plans Examiner By Email When You Have Submitted A Revision. If you originally submit paper plans, revisions must be submitted as paper plans. If you submit online, revisions must be submitted online.

**END –ZONING CODE REVIEW**

**NOTE:** THIS CONSTITUTES A PLAN REVIEW TO DATE IN RESPONSE TO THE SUBMITTED INFORMATION ASSOCIATED WITH THE ABOVE REFERENCED APPLICATION. ADDITIONAL ISSUES MAY DEVELOP WHEN THE REVIEW CONTINUES UPON RECEIPT OF ADDITIONAL INFORMATION REQUESTED IN THIS LETTER OR UPON ADDITIONAL SUBMITAL FROM THE APPLICANT.

KEEP OUR OFFICE ADVISED OF ANY ACTION BY THE CITY OF TULSA BOARD OF ADJUSTMENT OR TULSA METROPOLITAN AREA PLANNING COMMISSION AFFECTING THE STATUS OF YOUR APPLICATION FOR A ZONING CLEARANCE PERMIT.

ACTION REQUESTED: Variance of the required parking spaces to permit a business office (Section 55.050-K) Variance of the Parking Area Design Standards to permit to permit 6 non-conforming parking spaces (Sec. 55.090)

LOCATION: 6287 E 38 ST S
ZONED: CS

PRESENT USE: Vacant
TRACT SIZE: 16875.21 SQ FT

LEGAL DESCRIPTION: W75 OF S225 LT 1 BLK 1, WILMOT ADDN

RELEVANT PREVIOUS ACTIONS:

Subject Property:

BOA-18932; On 01.09.01 the Board approved a variance of the required parking spaces from 9 spaces to 8 spaces for a Children's Nursery, Use Unit 5.

Surrounding properties: None

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of a "Regional Center" and an "Area of Growth".

Regional Centers are mid-rise mixed-use areas for large-scale employment, retail, and civic or educational uses. These areas attract workers and visitors from around the region and are key transit hubs; station areas can include housing, retail, entertainment, and other amenities. Automobile parking is provided on-street and in shared lots. Most Regional Centers include a parking management district.

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

ANALYSIS OF SURROUNDING AREA: The subject tract is located West of the NW/c of E 38th Street and S. Sheridan Road

STAFF COMMENTS: The applicant is requesting Variance of the required parking spaces to permit a business office (Section 55.050-K) Variance of the Parking Area Design Standards to permit to
permit 6 non-conforming parking spaces (Sec. 55.090) A copy of Sec. 55.090 is included in your packets.

STATEMENT OF HARDSHIP: The property is landlocked, no room for additional spaces.

SAMPLE MOTION:

Move to (approve/deny) a Variance of the required parking spaces to permit a business office (Section 55.050-K) Variance of the Parking Area Design Standards to permit to permit 6 non-conforming parking spaces (Sec. 55.090)

- Finding the hardship(s) to be ____________________________.

- Per the Conceptual Plan(s) shown on page(s) _______ of the agenda packet.

- Subject to the following conditions ____________________________.

In granting the Variance the Board finds that the following facts, favorable to the property owner, have been established:

a. That the physical surroundings, shape, or topographical conditions of the subject property would result in unnecessary hardships or practical difficulties for the property owner, as distinguished from a mere inconvenience, if the strict letter of the regulations were carried out;

b. That literal enforcement of the subject zoning code provision is not necessary to achieve the provision's intended purpose;
c. That the conditions leading to the need of the requested variance are unique to the subject property and not applicable, generally, to other property within the same zoning classification;

d. That the alleged practical difficulty or unnecessary hardship was not created or self-imposed by the current property owner;

e. That the variance to be granted is the minimum variance that will afford relief;

f. That the variance to be granted will not alter the essential character of the neighborhood in which the subject property is located, nor substantially or permanently impair use or development of adjacent property; and

"g. That the variance to be granted will not cause substantial detriment to the public good or impair the purposes, spirit, and intent of this zoning code or the comprehensive plan."
3. **Design**

Off-site parking areas must comply with all applicable parking area design regulations of Section 55.090. Off-site parking proposed to take place on a newly constructed parking area must comply with the PK district lot and building regulations of §25.030-C.

4. **Control of Off-Site Parking Area**

The property to be occupied by the off-site parking facilities must be under the same ownership as the lot containing the use to be served by the parking. The off-site parking area may be under separate ownership only if an agreement is provided guaranteeing the long-term availability of the parking, commensurate with the use served by the parking. The agreement must be filed of record in the county clerk's office of the county in which the property is located. Off-site parking privileges will continue in effect only as long as the agreement, binding on all parties, remains in force. If an off-site parking agreement lapses or is no longer valid, then parking must be provided as otherwise required by this chapter.

**Section 55.090 Parking Area Design**

55.090-A **Applicability**

The parking area design regulations of this section apply to all off-street parking lots for motor vehicles, whether containing required parking spaces or non-required parking spaces.

55.090-B **Ingress and Egress**

All parking areas must be designed to allow vehicles to enter and exit a street and cross public sidewalks in a forward motion, except that this requirement does not apply to lots with access on a minor street.

55.090-C **Stall Size**

Parking spaces must be at least 8.5 feet in width and 18 feet in length, exclusive of access drives and aisles. In parking areas where permanent wheel stops have been
installed, 2.5 feet of the parking space length (depth) beyond the wheel stop may be counted as part of the required stall length if that area is unobstructed and not part of another parking stall, drive aisle or sidewalk.

55.090-D Parking Area Layout (Geometrics)
Parking areas must be designed and marked in accordance with the dimensional standards of Table 55-5, which shows minimum dimensions for various parking layouts (angles). Requirements for layouts or angles not shown in Table 55-5 may be interpolated from the layouts shown, as approved by the development administrator.

55.090-E Tandem Parking

Tandem parking spaces may be used to satisfy parking requirements for household living uses when the spaces are assigned to the same dwelling unit. In all other cases parking spaces must be designed to allow each parking space to be accessed without passing through another parking space. Tandem parking arrangements must have a minimum stall of 8.5 feet and a minimum length of 36 feet.

Figure 55-6: Tandem Parking

55.090-F Surfacing

1. All off-street parking areas must be surfaced with a dustless, all-weather surface unless otherwise expressly stated in this zoning code. Pervious pavement or pervious pavement systems are allowed subject to the supplemental regulations of Section 55.090-F.4. Parking area surfacing must be completed prior to initiation of the use to be served by the parking.

2. All motorized vehicles designed for travel upon public streets and that are being parked, stored or displayed for sale must be parked, stored or displayed on dustless, all-weather surface. This surfacing requirement does not apply to junk or salvage yards. The board of adjustment is authorized to grant a special exception permitting the storage or display of motorized vehicles on a surface other than one consisting of a dustless, all-weather surface if the location complies with all applicable minimum building setbacks.

3. In RE and RS zoning districts, driveways serving residential dwelling units may not exceed 50% of the lot frontage or the following maximum widths, whichever is less, unless a greater width is approved in accordance with the special exception procedures of Section 70.120, or, if in a PUD, in accordance with the amendment procedures of Section 30.010-l.2, (Refer to the City of Tulsa Standard Specifications and Details for Residential Driveways #701-704).

[1] Maximum width applies to the composite of all driveways if multiple curb cuts are provided.
[2] Provided that for lot frontages less than 24 feet, a driveway up to 12 feet in width is permitted.
For approvals granted under the terms of the zoning code in effect prior to January 1, 2016, including (1) variances of maximum driveway coverage measured by width, square footage or percentage of yard and (2) establishment of PUD development standards that increase the maximum permitted driveway coverage measured by any such means, the foregoing maximums do not apply.

4. Pervious pavement or pervious pavement systems, including pervious asphalt, pervious concrete, modular pavers designed to funnel water between blocks, lattice or honeycomb shaped concrete grids with turf grass or gravel filled voids to funnel water, plastic geocells with turf grass or gravel, reinforced turf grass or gravel with overlaid or embedded meshes, resin-bound pervious pavement systems, or similar structured and durable systems are allowed as parking lot surfacing materials. Gravel, turf, or other materials that are not part of a structured system designed to manage stormwater are not considered pervious pavement or a pervious pavement system. Pervious pavement and pervious pavement systems must comply with the following:

   a. Materials must be installed and maintained in accordance with all applicable city standards. Damaged areas must be promptly repaired. Gravel that has migrated from a pervious pavement system onto adjacent areas must be regularly swept and removed.

   b. Accessible parking spaces and accessible routes from the accessible space to the principal structure or use served must comply with the building code.

   c. Pervious pavement or pervious pavement systems are prohibited in areas used for the dispensing of gasoline or other liquid engine fuels or where other hazardous materials are used or stored.

   d. Pervious asphalt, pervious concrete, or modular pavers may be used for drive aisles and driveways, but no other pervious pavement systems may be used in such areas unless expressly approved by the development administrator.

   e. Pervious pavement or pervious pavement systems that utilize turf grass may not be used to meet minimum off-street parking requirements, but may be used for overflow parking spaces that are not used for required parking and that are not occupied on a daily or regular basis.

   f. Pervious pavement or pervious pavement systems that utilize gravel with overlaid or embedded mesh or geocells may be used only in industrial zoning districts.

   g. Parking areas with pervious pavement or pervious pavement systems must have the parking spaces marked as required by this chapter, except that pervious pavement systems that utilize gravel or turf may use alternative marking to indicate the location of the parking space, including markings at the end of spaces on the drive aisle or curbing, wheel stops, or concrete or paver strips in lieu of painted lines.

55.090-G Vertical Clearance
All parking spaces must have overhead vertical clearance of at least 7 feet.

55.100-B Dimensions
Each lane of stacking spaces must be at least 8 feet in width and at least 18 feet in length. Stacking lanes must be delineated with pavement markings.

55.100-C Location and Design
1. Stacking lanes must be located on the subject property. They may not be located within required driveways or drive aisles, parking spaces or loading areas and may not interfere with access to parking and ingress and egress from the street.

2. All areas associated with drive-through facilities, including drive-through signs, stacking lanes, trash receptacles, loudspeakers and service windows must be located to the rear or on the non-street-facing side of the property. Drive-through lanes must be set back at least 10 feet from abutting R- or AG-R- zoned lots, and a screening wall or fence must be provided along the common lot line in accordance with the F1 screening fence or wall standards of §55.070.C.

55.100-D Pedestrian Access
The principal pedestrian access to the entrance of the use from a public sidewalk may not cross the drive-through facility stacking lane.

Section 55.110 Accessible Parking for People with Disabilities
Accessible parking facilities must be provided in accordance with the building code.

Section 55.120 Loading
Unenclosed off-street loading areas may not be located within 50 feet of any abutting R- or AG-R-zoned properties unless the loading areas are screened on all sides abutting the R- or AG-R-zoned property in accordance with the F1 screening fence or wall standards of §55.070.C.

Action Requested:
Variance of setback requirements for parking and structure parking. SECTION 1302.B. SETBACKS; a Special Exception for church use. SECTION 401. PRINCIPAL USES PERMITTED IN RESIDENTIAL DISTRICTS – Use Unit 5; and a Variance of height limitation from 35' to 51'. SECTION 403. BULK AND AREA REQUIREMENTS IN RESIDENTIAL DISTRICTS, located 4102 East 61st Street.

Presentation:
Before presentation, Jim Goodwin, 624 E. Archer, asked a few questions regarding concerns of an interested party that Mr. White would need to abstain. He submitted a letter (Exhibit B-2) from 1994 regarding the White Surveying Company doing work on a project on this property. Discussion ensued and Chair White abstained on this case. Mr. Goodwin also informed the Board that the sign of notice was not placed on the subject property. Mr. Prather stated that this matter could be heard at this time or at the time for Interested Parties. Mr. Dunham stated that the applicant could present while legal researched the issue of the sign placement.

Kevin C. Coutant, 320 S. Boston, asked for the case to be tabled until this issue was decided. He had submitted a packet to the Board, including the site plan and photographs (Exhibit B-1).

Mr. Dunham stated the Board would hear the next case.

Presentation:
Lynn Coye, 6287 E. 38th St. came before the Board to present her application.

Comments and Questions:
Mr. Dunham asked if she was seeking approval for the existing parking. Ms. Coye
replied in the affirmative.

Interested Parties:
There were no interested parties who wished to speak.

Board Action:
On MOTION of Dunham, the Board voted 5-0-0 (White, Dunham, Turnbo, Perkins,
Cooper "aye"; no "nays"; no "abstentions"; no "absences") to APPROVE a
Variance of required parking of 9 spaces to 8 spaces, finding the hardship to be
the size of the lot and the building is existing, on the following described property:

Comments and Questions:
Mr. Prather, informed the Board that the sign would need to be placed properly for
the Special Exception but would not be required for the Variances. Mr. Coutant
explained to the Board that the Special Exception previously granted did not cover
the property in question. After discussion it was confirmed that the sign had not
been placed on the property involved. Mr. Coutant asked for a Continuance rather
than to present the Variances without the Special Exception at this time to avoid
unnecessary confusion. Mr. Goodwin responded that he would give written notice
to the Board to waive any further objection to the notice issue, once it is placed
properly for the next hearing.

This letter of deficiencies covers zoning Review items only.

You may receive additional letters from other disciplines such as Building or Water/Sewer/Drainage for additional deficiencies regarding Utility Easement placement which are not addressed in this letter.

1.) Section 55.020 Minimum Parking Ratios: Off-street motor vehicle parking spaces must be provided in accordance with the minimum ratios established in Table 55-1. See Section 55.050 for an explanation of exemptions and allowed reductions of minimum motor vehicle parking requirements. See Section 55.060 for additional information about bicycle parking requirements.

2.) Parking Area Layout (Geometrics) Parking areas must be designed and marked in accordance with the dimensional standards of Table 55-5, which shows minimum dimensions for various parking layouts (angles). Requirements for layouts or angles not shown in Table 55-5 may be interpolated from the layouts shown, as approved by the development administrator.

Review Comments: The proposed Business Office (4224 sq. ft.) requires 12 parking spaces in compliance with section 55.020. Provide 12 parking spaces and maneuvering on the lot in compliance with the 55.090. If you cannot provide the adequate number of parking spaces and maneuvering on the lot, you may pursue a variance of the number of required parking spaces or an alternative compliance parking plan per 55.050-K. Please contact the Tulsa Planning Office at 918-584-7526 for information on pursuing an alternative compliance.

NOTE: Please direct all questions concerning variances, special exceptions, appeals of an administrative official, Planned Unit Developments (PUD), Corridor (CO) zoned districts, zoning changes, platting, lot splits, lot combinations, alternative compliance landscape plans and all questions regarding (BOA) or (TMAPC) application forms and fees to an INCOG representative at 584-7526. It is your responsibility to send the decision of any actions by the BOA or TMAPC affecting the status of your application to our office, so we may continue to process your application. INCOG does not act as your legal or responsible agent in submitting documents to the City of Tulsa on your behalf.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of a "Employment Designation " and an "Area of Growth".

Employment areas contain office, warehousing, light manufacturing and high tech uses such as clean manufacturing or information technology. Sometimes big-box retail or warehouse retail clubs are found in these areas. These areas are distinguished from mixed-use centers in that they have few residences and typically have more extensive commercial activity. Employment areas require access to major arterials or interstates. Those areas, with manufacturing and warehousing uses must be able to accommodate extensive truck traffic, and rail in some instances. Due to the special transportation requirements of these districts, attention to design, screening and open space buffering is necessary when employment districts are near other districts that include moderate residential use.

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

ANALYSIS OF SURROUNDING AREA: The subject tract is located West of the NW/c of S. 33rd W. Ave/ Charles Page Boulevard and West 5th Street.
**STAFF COMMENTS:** The applicant is requesting **Special Exception** to permit a High-Impact Medical Marijuana Processing Facility in the IM District (Section 15.020, Table 15-2)

35.070-C High-impact Manufacturing and Industry

Manufacturing and industrial uses that regularly use hazardous chemicals or procedures or that produce hazardous byproducts or explosive hazards. Typical examples of high-impact manufacturing and industrial uses include: the manufacture of acetylene, cement, lime, gypsum or plaster-of-Paris, chlorine, corrosive acid or fertilizer, insecticides, disinfectants, poisons, explosives, paint, lacquer, varnish, petroleum products, coal products, plastic and synthetic resins and radioactive materials. This subcategory also includes petrochemical tank farms, gasification plants, smelting, animal slaughtering, oil refining, asphalt and concrete (batch) plants and tanneries.

1. **High-impact Medical Marijuana Processing Facility**
   An establishment in which the preparation, manufacture, processing or packaging of medical marijuana products by the holder of a medical marijuana processor license issued by the Oklahoma State Department of Health is conducted, in accordance with the terms of such license, and in which extraction processes include the use of flammable substances such as butane, propane, ethanol and alcohol.
Medical Marijuana Uses are subject to the supplemental regulations found in Sec. 40.225:

**Section 40.225 Medical Marijuana Uses**
The supplemental use regulations of this section apply to medical marijuana uses.

- **40.225-A** A medical marijuana grower operation must be located inside an enclosed building.
- **40.225-B** A medical marijuana processing facility, whether moderate-impact or high-impact, must be located inside an enclosed building.
- **40.225-C** A medical marijuana dispensary must be located inside an enclosed building.
- **40.225-D** A medical marijuana dispensary may not be located within 1,000 feet of another medical marijuana dispensary.
- **40.225-E** Drive-through windows and drive-through lanes are prohibited for medical marijuana grower operations, processing facilities, dispensaries, and research facilities.
- **40.225-F** Medical marijuana grower operations, processing facilities, and dispensaries must provide the following:
  1. A ventilation/air filtration system that prevents odor from being detectable at the boundaries of the lot within which the building housing the medical marijuana grower operation, processing facility or dispensary is located, except that if such use is located in multiple-tenant building, the ventilation/air filtration system must prevent odor from being detectible outside the tenant space housing the use.
  2. An electronic security system and surveillance camera.

**40.225-G** Medical marijuana grower operations, processing facilities, dispensaries, and research facilities must be conducted and maintained in compliance with the license issues by the Oklahoma State Department of Health and in compliance with Oklahoma law, including but not limited to all applicable statutes, rules, and regulations.

**40.225-H** No medical marijuana grower operation, processing facility, dispensary or research facility shall be permitted or maintained unless there exists a valid license, issued by the Oklahoma State Department of Health for the particular use at the particular location.

**40.225-I** The separation distance required under Section 40.225-D must be measured in a straight line between the nearest perimeter walls of the buildings (or portion of the building, in the case of a multiple-tenant building) occupied by the dispensary. The separation required under Section 40.225-D shall not be applied to limit the location of a medical marijuana dispensary for which a license was issued by the Oklahoma State Department of Health prior to December 1, 2018 for the particular location.

Move to _________ (approve/deny) a **Special Exception** to permit a High-Impact Medical Marijuana Processing Facility in the IM District (Section 15.020, Table 15-2)

Per the Conceptual Plan(s) shown on page(s) ______ of the agenda packet.

Facing East on 43rd Street
Location: South of the southeast corner of East 41st Street South and South 87th East Avenue requesting rezoning from IL to IM with an optional development plan

STAFF RECOMMENDATION:
SECTION I: Z-7529

DEVELOPMENT CONCEPT:

The applicant respectfully requests that, pursuant to Section 70.040-B.2 of the Tulsa Zoning Code, the development of the Property be approved with the additional development limitations as follows:

Use. The use of the Property will be limited to those uses permitted as a matter of right and special exception (with the approval of the City of Tulsa Board of Adjustment) in the Industrial Light District and the following uses allowed in the IM District:

Moderate-impact Medical Marijuana Processing and High-impact Medical Marijuana Processing (limited to butane and propane based extraction) (with the approval of the City of Tulsa Board of Adjustment),

DETAILED STAFF RECOMMENDATION:

The subject lot is located within an Employment land use designation of the City of Tulsa Comprehensive plan. The site is not part of a small area plan that might provide additional guidance however this request is consistent with the anticipated land use designation and:

The proposed allowable uses identified in Section II are compatible with the surrounding proximate properties and;

The proposal is consistent with the anticipated future development patterns of the surrounding area, therefore;

Staff recommends approval of Z-7529 to rezone property from IL to IM with the optional development plan standards outlined in Section II below.

SECTION II: OPTIONAL DEVELOPMENT PLAN STANDARDS

The optional development plan standards will conform to the provisions of the Tulsa Zoning Code for development in an IM district with its supplemental regulations except as further refined below. SECTION III: Supporting Documentation

RELATIONSHIP TO THE COMPREHENSIVE PLAN:

Staff Summary: The employment land use designation anticipated light industrial uses. The anticipated redevelopment is consistent with the general concept of employment land use vision. The zoning and its optional development plan provided are consistent with the expected land use designation. In this instance the applicant did not provide any additional standards for current supplemental regulations therefore all current zoning code requirements will be used during site redevelopment.

Land Use Vision:

Land Use Plan map designation: Employment

Employment areas contain office, warehousing, light manufacturing and high tech uses such as clean manufacturing or information technology. Sometimes
big-box retail or warehouse retail clubs are found in these areas. These areas are distinguished from mixed-use centers in that they have few residences and typically have more extensive commercial activity.

Employment areas require access to major arterials or interstates. Those areas, with manufacturing and warehousing uses must be able to accommodate extensive truck traffic, and rail in some instances. Due to the special transportation requirements of these districts, attention to design, screening and open space buffering is necessary when employment districts are near other districts that include moderate residential use.

Areas of Stability and Growth designation: Area of Growth

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

Areas of Growth are found throughout Tulsa. These areas have many different characteristics but some of the more common traits are close proximity to or abutting an arterial street, major employment and industrial areas, or areas of the city with an abundance of vacant land. Also, several of the Areas of Growth are in or near downtown. Areas of Growth provide Tulsa with the opportunity to focus growth in a way that benefits the City as a whole. Development in these areas will provide housing choice and excellent access to efficient forms of transportation including walking, biking, transit, and the automobile.”

Transportation Vision:

Trail System Master Plan Considerations: None

Small Area Plan: None

Special District Considerations: None

Historic Preservation Overlay: None

DESCRIPTION OF EXISTING CONDITIONS:
**Staff Summary:** The site is an existing single story building and is surrounded by single story buildings that are a mix of uses that all seem to be consistent with uses allowed in a light industrial zoning district. The south side of the site is adjacent to a rail line. This site does not have spur access.

**Environmental Considerations:** None that would affect site redevelopment

**SECTION IV: Relevant Zoning History**

**ZONING ORDINANCE:** Ordinance number 11824 dated June 26, 1970 established zoning for the subject property.
Subject Property:

No Relevant History.

Surrounding Property:

BOA-17567 November 1996: The Board of Adjustment approved a Special Exception to permit Use Unit 2 (crematory) in an IL zoned district subject to unloading of carcasses inside the building, carcasses being frozen when they arrive, and carcasses being delivered in a covered truck, on property located at 8714 East 43rd Street.

BOA-16652 May 1994: The Board of Adjustment approved a Special Exception to permit a bridal shop in an IL zoned district per plot plan submitted, subject to the use being limited to a 1500 sq ft bridal shop and accessory office only, on property located at 8702 East 43rd Street.

BOA-07999 August 1973: The Board of Adjustment approved an Exception to permit the manufacturing of process heaters in an IL district, thereby upholding the decision of the building inspector for refusing to permit the extension of a building used for the manufacturing of process heaters in an IL district due to the operation being a heavier use than a light manufacturing plant, requiring an exception via the Board, on property located at 8199 East 44th Street.

TMAPC Comments:

Mr. Walker asked staff how they defined high impact?

Staff stated they would let the applicant talk about that.

Applicant Comments:

Lou Reynolds 2727 East 21st Street Tulsa, OK

Mr. Reynolds stated in this particular case what makes something high impact is the method in which they process the marijuana. He stated in this case they are using butane and propane. Mr. Reynolds stated the subject lot is located next to auto repair shops where paint is being sprayed. Mr. Reynolds stated this is basically a paint booth inside. He stated there’s nothing unusual about this process, it’s how they extract perfumes and how they manufacture medication. Mr. Reynolds stated the process has been around forever and a lot of different industries use this process.

The applicant indicated his agreement with staff’s recommendation.
There were no interested parties wishing to speak.

Exhibit “A”

Lot Twenty (20), LESS the East 0.5 Feet of the South 50.04 feet thereof, Block One (1), SOUTHPLACE INDUSTRIAL PARK, an Addition to the City of Tulsa, Tulsa County, State of Oklahoma, according to the Recorded Plat No. 3371.
Exhibit “B”

Applicant requests a Special Exception to permit High-Impact Medical Marijuana Processing in an IM – Industrial Moderate District, pursuant to Table 15-2 and Section 70.120 of the Tulsa Zoning Code (the “Code”) at property located at 8708 East 43rd Street (the “Property”).

The Property is located in an industrial complex east of Memorial Drive and south of East 41st Street and the Broken Arrow Expressway. The 3,840 SF building on the Property is accessed from the north by East 43rd Street and abuts a railroad to the south. The complex includes a variety of industrial uses including Midwest Drywall Co., Can-Serv and Canada Co. (industrial equipment and gas suppliers), and automotive repair and service shops. Just south of the Property across the railroad tracks is the Ruhrpumpen plant which manufactures industrial fire protection pump systems.

The Property was recently been rezoned from IL to IM with an Optional Development Plan in place. On January 22, 2020, TMAPC recommended approval of the rezoning in Case Z-7594 and on March 4, 2020, the Tulsa City Council unanimously approved the same, said rezoning adopted by Ordinance No. 11824. As part of the Optional Development Plan, high-impact medical marijuana processing is a permitted use with approval of a special exception by the Board of Adjustment.

The proposed use is a high-impact medical marijuana processing facility that will use butane and propane extraction methods. The processing will be equally or less intense that the uses currently ongoing in the area and thus will not be injurious to the neighborhood or otherwise detrimental to the public welfare. Further, as a permitted use by special exception in the IM District, and as permitted in the Optional Development Plan approved by the Tulsa City Council, the processing facility is in harmony with the spirit and intent of the Code.

RELEVANT PREVIOUS ACTIONS: None.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of a "Employment Designation " and an "Area of Growth".

Employment areas contain office, warehousing, light manufacturing and high tech uses such as clean manufacturing or information technology. Sometimes big-box retail or warehouse retail clubs are found in these areas. These areas are distinguished from mixed-use centers in that they have few residences and typically have more extensive commercial activity. Employment areas require access to major arterials or interstates. Those areas, with manufacturing and warehousing uses must be able to accommodate extensive truck traffic, and rail in some instances. Due to the special transportation requirements of these districts, attention to design, screening and open space buffering is necessary when employment districts are near other districts that include moderate residential use.

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

ANALYSIS OF SURROUNDING AREA: The subject tract is located West of the NW/c of S. 33rd W. Ave/ Charles Page Boulevard and West 5th Street.

REVISED 4/18/2020
STAFF COMMENTS: The applicant is requesting Special Exception to permit the addition of a H-3/H-4 liquid storage warehouse (Industrial/High-impact Manufacturing & Industry Use) in an IM District (Sec.15.020 Table 15-2).

35.070-C High-impact Manufacturing and Industry
Manufacturing and industrial uses that regularly use hazardous chemicals or procedures or that produce hazardous byproducts or explosive hazards. Typical examples of high-impact manufacturing and industrial uses include: the manufacture of acetylene, cement, lime, gypsum or plaster-of-Paris, chlorine, corrosive acid or fertilizer, insecticides, disinfectants, poisons, explosives, paint, lacquer, varnish, petroleum products, coal products, plastic and synthetic resins and radioactive materials. This subcategory also includes petrochemical tank farms, gasification plants, smelting, animal slaughtering, oil refining, asphalt and concrete (batch) plants and tanneries.

SAMPLE MOTION:
Move to _______ (approve/deny) a Special Exception to permit the addition of a H-3/H-4 liquid storage warehouse (Industrial/High-impact Manufacturing & Industry Use) in an IM District (Sec.15.020 Table 15-2).

- Per the Conceptual Plan(s) shown on page(s) _____ of the agenda packet.
- Subject to the following conditions (including time limitation, if any):
  ________________________________.

The Board finds that the requested Special Exception will be in harmony with the spirit and intent of the Code and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.
