APPLICANT: Robison Consulting, LLC

ACTION REQUESTED: Special Exception to increase the permitted driveway width (Sec. 55.090-F)

LOCATION: 13642 E 28 PL S

ZONED: RS-3

PRESENT USE: Residential

TRACT SIZE: 11756.89 SQ FT

LEGAL DESCRIPTION: LT 1 BLK 2, EASTLAND ACRES EXT

RELEVANT PREVIOUS ACTIONS: None.

RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of an "Existing Neighborhood" and an "Area of Stability".

An **Existing Neighborhood** is intended to preserve and enhance Tulsa's existing single-family neighborhoods. Development activities in these areas should be limited to the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects, as permitted through clear and objective setback, height, and other development standards of the zoning code.

The **Areas of Stability** include approximately 75% of the city's total parcels. Existing residential neighborhoods, where change is expected to be minimal, make up a large proportion of the Areas of Stability. The ideal for the Areas of Stability is to identify and maintain the valued character of an area while accommodating the rehabilitation, improvement or replacement of existing homes, and small-scale infill projects. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life. The concept of stability and growth is specifically designed to enhance the unique qualities of older neighborhoods that are looking for new ways to preserve their character and quality of life.

ANALYSIS OF SURROUNDING AREA: The subject tract is located at the SW/c of S. 138th E. Ave. and E. 28th St. S.

55.090-F3 Surfacing. In RE and RS zoning districts, driveways serving residential dwelling units may not exceed the following maximum widths unless a greater width is approved in accordance with the special exception procedures of Section 70.120. Based on your lot width the Maximum Driveway Width allowed in the Right Of Way (ROW) is 26' and 30' outside of ROW on this lot.

Review Comments: The submitted site plan proposes a combined driveway width of more than 30' in width on the lot in the street setback and more than 26' wide in ROW which exceeds the maximum allowable driveway widths both within and outside of the ROW. Revise plans to indicate the combined driveway widths shall not exceed the maximum allowable widths or apply to the BOA for a special exception, one for the proposed combined driveway widths within the ROW and also for the proposed combined driveway widths outside of the ROW.
