General Notes:

Call OKIE prior to digging or trenching. Contractor is responsible for any damage to existing and new utility lines above or below ground and shall repair any damage caused during landscape or hardscape construction activities at no cost to the owner.

Obtain Landscape Architect's approval prior to making any major changes.

All areas that are disturbed by construction and not designated as planting areas shall be fine graded with additional topsoil and sodded with solid slab sod, matching the variety of the existing sod.

Additional Pool Notes:

*All gates leading to pool area must be self-closing, self-latching, and lockable.

*Perimeter fencing must be a minimum of 4' in height.
