On **MOTION** of **HUTCHINSON**, the Board voted 4-0-0 (Charney, Crall, Hutchinson, Johnston "aye"; no "nays"; no "abstentions"; Dillard "absent") to **APPROVE** the Minutes of January 21, 2020 (No. 478).

---

Ms. Jones read the rules and procedures for the Board of Adjustment Public Hearing.

---

Mr. Charney explained to the applicants and interested parties that there were only four board members present at this meeting. If an applicant or an interested party would like to postpone his or her hearing until the next meeting he or she could do so. If the applicant wanted to proceed with the hearing today it would be necessary for him to receive an affirmative vote from three board members to constitute a majority and if two board members voted no today the application fails. Mr. Charney asked if anyone would like to continue their case and if they understood. Everybody nodded in understanding and no one requested a continuance.

NEW APPLICATIONS

2799—Ronald Dahl

**Action Requested:**
Use Variance to allow outdoor storage of boats and recreational vehicles (Use Unit 23 – storage not elsewhere classified – in an AG District (Section 1223); Variance from the all-weather parking surface requirement (Section 1340.D).  

**LOCATION:**
3801 South 137th Avenue West, Sand Springs

**Presentation:**
Ronald Dahl, 14111 West 41st Street, Sand Springs, OK; stated he has a mini storage located at the subject address and he has purchased the land behind the property to extend the storage to include RVs and boats; open storage.

Mr. Charney asked Mr. Dahl why he is seeking a Variance from the all-weather parking surface.  Mr. Dahl stated the property next door is a church and the run-off from their retention runs onto his property, and the gravel surface would allow for absorption of the water runoff.

Mr. Charney asked Mr. Dahl if customers would be pulling into the proposed RV and boat storage area.  Mr. Dahl answered affirmatively.

Mr. Charney stated the reason for the hard surface requirement is to make certain there is ease of ingress and egress, and a gravel lot can end up being full of ruts and messy.  Mr. Charney asked Mr. Dahl how he will install and maintain the gravel lot to make sure that does not happen.  Mr. Dahl stated there is a paved road to the parking storage area and a contractor will remove the topsoil and lay gravel down.  He plans to maintain the lot himself and if it becomes too much, he will contract the maintenance out.

Mr. Crall asked Mr. Dahl to explain the terminology "storage pad".  Mr. Dahl stated that it is a parking space.  Mr. Crall asked Mr. Dahl if that means gravel will not cover the entire area.  Mr. Dahl stated that gravel will cover the entire area.

Mr. Johnston asked Mr. Dahl if he planned to lay a separation material below the gravel to prevent the mud from rising up through the gravel.  Mr. Dahl stated the contractor did ask him about the separation material and he had not planned on laying that down unless it is required.
Mr. Crall asked Mr. Dahl what type of fence will be installed around the property. Mr. Dahl stated that it will be a six-foot chain link fence.

Mr. Charney asked Mr. Dahl if he purchased the property from the church or from another party? Mr. Dahl stated he purchased the subject property from a private individual.

Mr. Charney asked Mr. Dahl if the church was aware of his plans for the subject property. Mr. Dahl answered affirmatively, and stated the church has no objections.

Board Action:
On MOTION of HUTCHINSON, the Board voted 4-0-0 (Charney, Crall, Hutchinson, Johnston “aye”; no “nays”; no “abstentions”; Dillard “absent”) to APPROVE the request for a Variance of the minimum frontage requirement on a public street/dedicated right-of-way from 30 feet to 0 feet in the AG District (Section 207), subject to conceptual plan 3.10 of the agenda packet.  The Board has found the hardship to be the fact that the applicant owns the other tract and it is a dedicated road that the County does not maintain.  In
granting a Variance, the Board must find that by reason of extraordinary or exceptional conditions or circumstances which are peculiar to the land, structure or building involved, the literal enforcement of the terms of the Code would result in unnecessary hardship; that such extraordinary or exceptional conditions or circumstances do not apply generally to other property in the same use district; and that the variance to be granted will not cause substantial detriment to the public good or impair the purposes, spirit, and intent of the Code, or the Comprehensive Plan; for the following property:

W/2 N/2 N/2 NW SEC 26 19 10 10ACS, OF TULSA COUNTY, STATE OF OKLAHOMA

The Board finds the hardship to be that this particular tract of land is inset off the publicly dedicated roadway, but it is compensated by an existing
roadway utility easement that has been on record for many years; for the following property:

Comments and Questions:
Ms. Tosh asked if Mr. Anderson had inquired about his neighborhood’s covenants.
Mr. Charney stated the Board does not normally study the private covenants in a subdivision, but staff is correct in suggesting as a courtesy to make certain that there are no recorded subdivision covenants, conditions or restrictions that impact the proposal. Even if the Board of Adjustment gives approval today there might be a private contractual covenant that would prevent this.

The accessory building is to be used for personal use only. The Board has found the hardship to be the extraordinary size of the platted lot compared to the vast majority of lots that are subject to the 750 square foot limitation. The Board has found this request will not be detrimental to the public welfare; for the following property:
