Amendment of Deed of Dedication of

RESUBDIVISION OF BLOCK 4
PASADENA ADDITION

WHEREAS the undersigned are the Owners of all of the lots in Resubdivision of Block 4, Pasadena Addition, an Addition to the City of Tulsa, Tulsa County, State of Oklahoma, according to the Recorded Plat thereof [Plat No. 2416 in the records of the Tulsa County Clerk], the "Subdivision" and

WHEREAS, Sections 1 and 2 of the Owner’s Certificate of Deed of Dedication and Bill of Assurance accompanying said Plat (the “Deed of Dedication”) establish private covenants, enforceable by the owners of property within the Subdivision, and

WHEREAS Section 1 of the Deed of Dedication reads as follows:

All buildings located on said lots shall be located no nearer to the front or side or rear of said lots than the building set back lines provided in the above and attached Plat,

and

WHEREAS, the Plat depicts a building setback line affecting Lots One (1) and Two (2) (collectively, the “Subject Property”) a distance of 50 feet from Peoria Avenue (i.e. the East boundary of said Lots), and

WHEREAS, said 50 foot building setback is no longer necessary and, under the current zoning classification of the Subject Property, is not required by the Tulsa Zoning Code (Title 42 Tulsa Revised Ordinances), and

WHEREAS all of the undersigned Owners are in agreement to amend the Deed of Dedication to delete the requirement that the setback from Peoria Avenue be as depicted on the Plat and to provide that the setback from Peoria Avenue established by private covenants enforceable by owners of property within the Subdivision shall be twenty-five feet (25'), and

WHEREAS, all of the undersigned Owners desire to and are in agreement to establish certain use limitations on the Subject Property, as more specifically set forth below.
NOW, THEREFORE, the undersigned, being the owners of all of the lots in the Subdivision hereby make the following amendment to the Deed of Dedication, to-wit:

A. Section 1 of the Deed of Dedication is amended to read as follows:

All buildings located on said lots shall be located no nearer to the front or side or rear of said lots than the building set back lines provided in the above and attached Plat. Notwithstanding the foregoing, the “50’ building line” depicted along Peoria Avenue on the attached Plat is no longer of any force or effect, and the required set back from Peoria Avenue shall be twenty-five feet (25’).

B. The Deed of Dedication is amended to add the following Section:

3. No portion of Lots One (1) and Two (2) shall be used for any arcade; any tavern or bar, excluding a restaurant/bar with fifty-one percent (51%) or greater food sales; any automotive sales, leasing, outside display or repair; any animal care, sale, or raising facilities; any establishment selling or exhibiting pornographic materials; any adult entertainment store; any store selling sex toys and paraphernalia; any theater; any use which is a public or private nuisance as defined by the Ordinances of the City of Tulsa and the laws of the State of Oklahoma; or any establishment selling or exhibiting Hemp, Hemp extracts, CBD (cannabidiol), or Marijuana in any form.

C. This Amendment pertains to the private covenants established by the Deed of Dedication and does not purport to amend any zoning regulations applicable to the property within the Subdivision.

D. This Amendment shall be effective from and after its approval by the Tulsa Metropolitan Area Planning Commission and the recording of this Amendment in the land records in the office of the Tulsa County Clerk.

E. There is attached hereto an ownership report prepared by an abstractor licensed by the State of Oklahoma listing by name the owners of all of the Lots situated in the Resubdivision of Block 4, Pasadena Addition, an Addition to the City of Tulsa, Tulsa County, State of Oklahoma.

Dated this 29th day of JUNE, 2020.

Dwayne,

I made an error when entering the application that snowballed. The application is supposed to be a rezoning from AG to RE with a PUD. Ryan will have to expand on the need for the PUD, but the application is being continued to August 5th in order to allow for a new notice to be sent.

Good morning guys,

Can either of you give me an update on this application? When we talked about it last week there was some confusion about why a PUD was submitted and it looked like there were inconsistencies with the applicants information and what we advertised. AG-R vs RE.

Are we going to re-advertise or ask for a staff continuance?

PRELIMINARY SUBDIVISION PLAT

Crossover Community Development - (CD 1)
West of the southwest corner of East 36th Street North and North Peoria Avenue

This plat consists of 3 lots, 1 block on 9.28 ± acres.

The Technical Advisory Committee (TAC) met on October 18th, 2018 and provided the following conditions:

1. **Zoning:** The property is zoned CH (Commercial – High) and MX2-F-65 (Mixed-Use). The proposed lots conform to the requirements of the zoning districts.

2. **Addressing:** City of Tulsa addresses and street names must be assigned and affixed to the face of the final plat.

3. **Transportation & Traffic:** Apply limits of no access to areas outside of the planned driveways. Sidewalks will be required per Title 35 upon application for new building permits.

4. **Sewer:** Sanitary sewer extensions will require the approval of IDP. Final plat approval will not be given by the City of Tulsa until IDP has been approved. Dimension and label easements on the face of the plat.

5. **Water:** Water line extensions will require the approval of IDP. Final plat approval will not be given by the City of Tulsa until IDP has been approved.

6. **Engineering Graphics:** Submit a subdivision control data sheet with final plat submittal. Add "State of" before Oklahoma in plat subtitle. Add contact information for project engineer and surveyor. Update location map to reflect only platted property boundaries. Label all other areas as unplatted. Update street names in the location map. Ensure accuracy and consistency of legal description between written version and face of the plat. Add signature block for government official signature.

7. **Stormwater, Drainage, & Floodplain:** Private detention facility will need private easement. Offsite water flows from the west will need to be conveyed and placed in appropriate drainage easements. If additional detention is required, appropriate easements will need to be added.

8. **Utilities:** Telephone, Electric, Gas, Cable, Pipeline, Others: All utilities indicated to serve the site must provide a release prior to final plat approval. Provide a Certificate of Records Search from the Oklahoma Corporation Commission to verify no oil & gas activity on the site.

Staff recommends APPROVAL of the preliminary subdivision plat subject to the conditions provided by TAC and all other requirements of the Subdivision and Development Regulations.

SECTION III: Relevant Zoning History

ZONING ORDINANCE: Resolution number 98254 dated September 15, 1970 established zoning for the subject property.

Subject Property:

**CBOA-00217 July 1982:** The Board of Adjustment approved a Variance to allow two dwelling units per lot of record, subject to Tulsa City-County Health Department’s approval, and that the dwelling be located on the west-half of the lot, on property located at west of the northwest corner of 45th West Avenue and West 61st Street.

Surrounding Property:

**CBOA-02488 March 2014:** The Board of Adjustment approved a Special Exception to permit a manufactured home (Use Unit 9) in an RS District (Section 410), on property located at west of the southwest corner of West 59th Street South and South 39th Avenue West.

**CBOA-02168 July 2005:** The Board of Adjustment approved a Special Exception to allow a church and accessory church uses in an RS district, on property located at 4329 West 61st Street South.

**CBOA-01885 July 2001:** The Board of Adjustment approved a Special Exception to allow a singlewide manufactured home in an RS zoned district, with conditions for skirting, tie-downs, DEQ approval, and building permit and a Variance to allow two dwelling units on one lot of record, as submitted, on property located at 3920 West 59th Street South.
CBOA-00521 February 1985: The Board of Adjustment approved a Special Exception to permit automobile sales in a CS zoned district, a Variance to permit open air storage within 30' of an R district, subject to a six-car limitation on the used car lot, and to continue the balance of the application until March 19, 1985 to allow the applicant time to re-advertise for additional relief, as relates to screening, hard surface, etc., on property located at 4339 West 61st Street.

CBOA-00317: The Board of Adjustment approved a Special Exception to allow a mobile home in an RS District and a Variance to allow two dwelling units on one lot of record, subject to Tulsa City-County Health Department, and, subject to the issuance of a building permit, on property located at 4345 West 59th Street.

CBOA-00133 December 1981: The Board of Adjustment approved an Exception to permit a mobile home in an RS District, subject to a 5-year time limitation and the Health Department's approval, on property located at 4001 West 61st Street.

**SECTION I: CZ-502**

**DEVELOPMENT CONCEPT:** The applicant is proposing to rezone from AG to AG-R in order to construct single family residences with agricultural uses allowed. The site plan provided by the applicant shows the subject lot being divided into two 20 acres lots. If AG-R zoning is approved, it would allow lots with a minimum 1.1 acre area. These lots would be established as part of the platting process required with rezoning or if splitting the subject lot into more than four lots. The site is primarily located within the Rural Residential designation of the Tulsa County and City of Bixby Comprehensive Plans. The portions near the intersection of S Harvard Ave and E 171st St S contain areas of Neighborhood Commercial and Commercial designations. Given the current zoning of the area, current use and anticipated use, the proposal to rezone the subject lot to AG-R would be compatible with the development pattern of the area.

Staff recommends **Approval** of CZ-502 to rezone property from AG to AG-R.

**SECTION II: Supporting Documentation**

**RELATIONSHIP TO THE COMPREHENSIVE PLAN:**

**Staff Summary:** The site is located within the City of Bixby Comprehensive Plan Area, adopted January 14, 2019, and within the Tulsa County Comprehensive Plan, adopted June 19, 2019. It is designated as "Rural Residential, Neighborhood Commercial, and Commercial." See the description of this designation below as well as the attached Comprehensive Plan Map.

The **Rural Residential designation** denotes areas that have large-lot detached residential development in natural / rural portions of the City. Development in this designation should retain the rural character of the area and will be relatively low in density. However, these areas should offer sufficient access to schools, parks, trails, and open spaces to maintain the quality of life in the rural setting, and may allow limited commercial uses that support the surrounding rural area.

The **Neighborhood Commercial designation** denotes areas that provide goods and services to meet the frequent shopping needs of residents. Development shall have access to major roads and provide opportunities for walking and biking from nearby residential areas.
The **Commercial designation** denotes areas that create retail and commercial destinations for City residents, as well as others throughout the region. This designation may also support offices and business parks. Development shall have direct access to major roads and transit.

DETAILED STAFF RECOMMENDATION:

Z-7550 requesting rezoning to allow all uses in a CG district is consistent with the Regional Center Land Use designation in the Tulsa Comprehensive Plan and,

The Tulsa Comprehensive plan recognizes this area as an Area of Growth and the normal uses that are allowed in a CG district are consistent with the expected future development of the surrounding area and,

Development of this site will be guided by the normal supplemental regulations of all uses including the provisions for a Community Garden and Farm, Market or Community Supported specific use that will provide adequate standards that provided to integrate the development into the surrounding area therefore,

Staff recommends Approval of Z-7550 to rezone property from AG to CG.

SECTION II: Supporting Documentation

RELATIONSHIP TO THE COMPREHENSIVE PLAN:

Staff Summary: CG zoning allows uses that are generally consistent with the goals of the Regional Center land use designation.

Land Use Vision:

Land Use Plan map designation: Regional Center
Regional Centers are mid-rise mixed-use areas for large-scale employment, retail, and civic or educational uses. These areas attract workers and visitors from around the region and are key transit hubs; station areas can include housing, retail, entertainment, and other amenities. Automobile parking is provided on-street and in shared lots. Most Regional Centers include a parking management district.

Areas of Stability and Growth designation: Area of Growth
The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

Areas of Growth are found throughout Tulsa. These areas have many different characteristics but some of the more common traits are in proximity with abutting an arterial street, major employment and industrial areas, or areas of the city with an abundance of vacant land. Also, several of the Areas of Growth are in or near downtown. Areas of Growth provide Tulsa with the opportunity to focus growth in a way that benefits the City as a whole. Development in these areas will provide housing choice and excellent access to efficient forms of transportation including walking, biking, transit, and the automobile.”

DETAILED STAFF RECOMMENDATION:

Z-7561 is a request that will allow all uses in a CS district. Those uses are consistent with the Mixed-Use Corridor land use designation in the Tulsa Comprehensive Plan and,

The Tulsa Comprehensive plan recognizes this area as an area of growth even though the development pattern east of North Lewis and south the Gilcrease Expressway is platted and developed as a residential area with two lane streets and surface drainage on the shoulder of the street. The expected development pattern along North Lewis will be a mix of commercial, office and other uses typical along either side of an arterial street. It is unlikely that future residential development will occur along Lewis in this area and the CS district will be consistent with future development and,

The size of the site will prohibit some uses including the possibility of any off-premise outdoor advertising signage that could be objectionable to the surrounding single-family homes. Off premise advertising signages are required to be at least 150 feet from the R districts surrounding the site. That limitation will prohibit that type of signage while the abutting properties are zoned with an R designation and,

This site is not included in a small area plan that has additional guidance for this location therefore,

Staff recommends Approval of Z-7561 to rezone property from RS-3 to CS.

SECTION II: Supporting Documentation

RELATIONSHIP TO THE COMPREHENSIVE PLAN:

Staff Summary: CS zoning is generally consistent with the Mixed-Use Corridor land use designation.

Land Use Vision:

Land Use Plan map designation: Mixed-Use Corridor
A Mixed-Use Corridor is a plan category used in areas surrounding Tulsa’s modern thoroughfares that pair high capacity transportation facilities with housing, commercial, and employment uses. The streets usually have four or more travel lanes, and sometimes additional lanes dedicated for transit and bicycle use. The pedestrian realm includes sidewalks separated
from traffic by street trees, medians, and parallel parking strips. Pedestrian crossings are designed so they are highly visible and make use of the shortest path across a street. Buildings along Mixed-Use Corridors include windows and storefronts along the sidewalk, with automobile parking generally located on the side or behind. Off the main travel route, land uses include multifamily housing, small lot, and townhouse developments, which step down intensities to integrate with single family neighborhoods.

**Areas of Stability and Growth designation: Area of Growth**

The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

Areas of Growth are found throughout Tulsa. These areas have many different characteristics but some of the more common traits are close proximity to or abutting an arterial street, major employment and industrial areas, or areas of the city with an abundance of vacant land. Also, several of the Areas of Growth are in or near downtown. Areas of Growth provide Tulsa with the opportunity to focus growth in a way that benefits the City as a whole. Development in these areas will provide housing choice and excellent access to efficient forms of transportation including walking, biking, transit, and the automobile."

**Transportation Vision:**

**Major Street and Highway Plan: Multi Modal Corridor**

Multi-modal streets emphasize plenty of travel choices such as pedestrian, bicycle and transit use. Multimodal streets are in high intensity mixed-use commercial, retail and residential areas with substantial pedestrian activity. These streets are attractive for pedestrians and bicyclists because of landscaped medians and tree lawns. Multi-modal streets can have on-street parking and wide sidewalks depending on the type and intensity of adjacent commercial land uses. Transit dedicated lanes, bicycle lanes, landscaping and sidewalk width are higher priorities than the number of travel lanes on this type of street. To complete the street, frontages are required that address the street and provide comfortable and safe refuge for pedestrians while accommodating vehicles with efficient circulation and consolidated-shared parking.

Streets on the Transportation Vision that indicate a transit improvement should use the multi-modal street cross sections and priority elements during roadway planning and design.

SECTION I: Z-7564

DEVELOPMENT CONCEPT: The continued evolution of this site as an employment center along with zoning code modifications over the last 4 years have opened opportunities for expanded uses for this site. The applicant believes the CG zoning with the development plan defined in section II below will support the continued growth of this facility. The small area plan for this area in 2005 recommended opportunities that can be realized with this rezoning request.

DETAILED STAFF RECOMMENDATION:

Z-7564 is requesting rezoning with an optional development plan to allow certain uses in a CG district is consistent with a Regional Center Land Use designation in the Tulsa Comprehensive Plan and,

The Tulsa Comprehensive plan recognizes this area as an area of growth and the normal uses that are allowed in a CG district may not be consistent with the expected future development of the surrounding area however CG zoning with use limitations and supplemental regulations in the current zoning code are consistent with expected future development patterns in the area and,

The development plan outlined in Section II below is consistent with the provisions of the Tulsa Zoning code and,

The development plan and CG zoning is consistent with the goals identified in the 2005 East Tulsa Implementation Plan therefore,

Staff recommends Approval of Z-7564 to rezone property from CS to CG with the optional development plan standards outlined in Section II.

SECTION II: OPTIONAL DEVELOPMENT PLAN STANDARDS

The optional development plan standards will conform to the provisions of the Tulsa Zoning Code for development in a CG district with its supplemental regulations except as further refined below. SECTION III: Supporting Documentation

RELATIONSHIP TO THE COMPREHENSIVE PLAN:
Staff Summary: Uses and supplemental regulations defined in the optional development plan associated with the CG zoning request are consistent with the small area plan and the land use designation in the Tulsa Comprehensive Plan.

Land Use Vision:

Land Use Plan map designation: Regional Center
Regional Centers are mid-rise mixed-use areas for large-scale employment, retail, and civic or educational uses. These areas attract workers and visitors from around the region and are key transit hubs; station areas can include housing, retail, entertainment, and other amenities. Automobile parking is provided on-street and in shared lots. Most Regional Centers include a parking management district.

Areas of Stability and Growth designation: Area of Growth
The purpose of Areas of Growth is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

Areas of Growth are found throughout Tulsa. These areas have many different characteristics but some of the more common traits are close proximity to or abutting an arterial street, major employment and industrial areas, or areas of the city with an abundance of vacant land. Also, several of the Areas of Growth are in or near downtown. Areas of Growth provide Tulsa with the opportunity to focus growth in a way that benefits the City as a whole. Development in these areas will provide housing choice and excellent access to efficient forms of transportation including walking, biking, transit, and the automobile."

Transportation Vision:

Major Street and Highway Plan:

East 21st and South 145th East Avenue are both designated as Primary Arterial streets. East 21st is also classified as a Multi Modal Corridor.

Multi-modal streets emphasize plenty of travel choices such as pedestrian, bicycle and transit use. Multimodal streets are located in high intensity mixed-use commercial, retail and residential areas with substantial pedestrian activity. These streets are attractive for pedestrians and bicyclists because of landscaped medians and tree lawns. Multi-modal streets can have on-street parking and wide sidewalks depending on the type and intensity of adjacent commercial land uses. Transit dedicated lanes, bicycle lanes, landscaping and sidewalk width are higher priorities than the number of travel lanes on this type of street. To complete the street, frontages are required that address the street and provide comfortable and safe refuge for pedestrians while accommodating vehicles with efficient circulation and consolidated-shared parking.

Streets on the Transportation Vision that indicate a transit improvement should use the multi-modal street cross sections and priority elements during roadway planning and design.
Trail System Master Plan Considerations: None

Small Area Plan: Z-7564 is in the East Tulsa Neighborhood Detailed Implementation Plan that was adopted in November 2005. The plan has not been updated but is being reviewed as part of new zoning application research.

The small area plan recognizes this site as a major activity center and encourages gateways that help identify the character for the neighborhood. Activity centers can be developed by clustering uses and ultimately taking on the characteristics of the historic town center. Concentration of civic institutional and commercial activity in these centers is encouraged and should be well designed.

The plan consists of 30 goals that all generally support major activity centers that are properly designed and may develop with mixed and multiple uses exhibiting an urban character, pedestrian friendly, walkable environments and appropriate transition areas.

East 21st and South 145th East Avenue are both considered Special Treatment Corridors that should optimize the use of existing street infrastructure and add the elements of the Special Treatment Corridor during redevelopment. This would include extensive landscape, street trees, boulevard treatments, streetscape, pedestrian scale lighting textured crosswalk at street intersections, appropriate traffic calming techniques and other appropriate roadway solutions.

Special District Considerations:

Future redevelopment considerations have been identified in the East Tulsa Neighborhood Detailed Implementation Plan. During the 2016 zoning code update building setbacks have been reduced and parking ratios have been relaxed in a way that supports the type of development illustrated below.

Historic Preservation Overlay: None

DESCRIPTION OF EXISTING CONDITIONS:

Staff Summary: The site was developed as a regional retail mall prior to implementation of any zoning code requirements for landscaping and when buildings were required to be set back from the street. The facility is now repurposed as a major employment center and includes multi story office structures. The building includes an underground vehicular access area for that was originally provided for retail loading, service and deliveries.

Environmental Considerations: None that affect site redevelopment
