Action(s) Requested

Variance to allow the floor area of detached accessory buildings to exceed 500 square feet and 40% of the floor area of the principal residential structure (Section 45.030-A)

Presentation by Applicant

Board Comments

The board stated that the size of the lot is very large for RS-2 and approving the application is the minimum relief that could be granted.

Board Action

Motion: Approve, per plans on pages 4.12-4.14 of the agenda packet, finding the hardship to be the size of the lot with preexisting uses that predate the current zoning code.

Motion By: Stauffer

Ayes: Radney, Stauffer, Wallace

Nays: None

Abstentions: None

Absent: Barrientos, Bond

In granting the Variance, the Board finds that the following facts, favorable to the property owner, have been established: that the physical surroundings, shape, or topographical conditions of the subject property would result in unnecessary hardships or practical difficulties for the property owner, as distinguished from a mere inconvenience, if the strict letter of the regulations were carried out; that literal enforcement of the subject zoning code provision is not necessary to achieve the provision's intended purpose; that the conditions leading to the need of the requested variance are unique to the subject property and not applicable, generally, to other property within the same zoning classification; that the alleged practical difficulty or unnecessary hardship was not created or self-imposed by the current property owner; That the variance to be granted is the minimum variance that will afford relief; That the variance to be granted will not alter the essential character of the neighborhood in which the subject property is located, nor substantially or permanently impair use or development of adjacent property; and that the variance to be granted will not cause substantial detriment to the public good or impair the purposes, spirit, and intent of the zoning code or the comprehensive plan.

Presentation by Applicant

Belinda Latham, 2623 W. 38th St. S., stated that she purchased a lot and manufactured home for permanent residency.

Tyler Poulsen, 11920 E. Admiral Pl. N., representative of Lifeway Homes, stated that the applicant purchased a 2024 manufactured home to place on the lot. He mentioned that the home will look like any other home in the area, and it will be on a concrete slab.

Speakers

- (-) Jana Schell, 3808 S. 29th W. Ave., was concerned that putting a manufactured home in the neighborhood would devalue the property surrounding it.
- (-) Beverly Bailey, 4424 E. 105th Pl. S., was concerned that a manufactured home affect property values.
- (-) Earl Brashear, 2501 W. 37th St. S., was concerned about the manufactured home affecting property values.
- (-) Kyle Bruce, 3651 S. 28th W. Ave., was concerned about the depreciation of properties surrounding the lot. He referenced a manufactured home that was approved 15 years ago with the condition that a traditional home was going to be built but it never was. He noted that he made a petition to deny the manufactured house and received 57 signatures.
- (-) Greg Guerro, 1313 S. Elwood Ave., was concerned about property values.
- (-) Brandon Worley, City Council staff speaking on behalf of City Councilor Jeannie Cue, stated that it would not be in keeping with the character of the neighborhood.

Applicant Rebuttal

Mr. Poulsen elaborated on the modern quality that manufactured homes are built to and acknowledged that the neighbors' concerns would be valid if it was an older, manufactured home.

Ms. Latham informed the board that when she purchased the lot, she cleaned it up to make it her home.

Board Comments

The board requested more information about the unit and pictures of the manufactured home. They proposed to continue the application to allow the applicant to talk to the neighbors and because two members of the board were absent.
