## MINUTES:

On MOTION of FULLER, the Board voted 4-0-0 (Bolzle, Chappelle, Fuller, White, "aye"; no "nays"; no "abstentlons"; Bradley, "absent") to APPROVE the Minutes of September 7, 1989.

## ClarIfication of Minutes - Case No. 15233

Mr. Jones stated that, at the previous meeting, the request was made to allow church use at 3231 East Seminole Street, with a varlance of the one acre lot minlmum to 7/10-acre. He stated that the minutes reflect that the Board approved the location of the use to be on the southwest corner of Tecumseh and Harvard; which was also the oplnlon of Staff; however, the applicant later Indicated to the Bullding Inspector that the west end of the tract is the actual location of the subject property. Mr. Jones stated that the lot is not located in the CS zoned portion of the tract, and that Staff is requesting a clarlficatlon of the Board's understanding and intent regarding this case.

There was Board discussion concerning the proposed location of the church, and it was thelr general consensus that the appllcant presented the location to be the southwest corner of Tecumseh, and that the minutes are correct.

## Clarlficatlon - Case No. 15233 (continued)

Mr. Jackere stated that he visited with a number of the protestants after the previous meeting and, even though the appllcant stated that the proposed church locatlon is in the CS zoned portlon, they knew that the property in question would be in the area closer to the residential district. Mr. Jackere stated that it was hls understanding that the church is to be on the southwest corner of the property, but that he had assured the protestants that they wlll be notifled if the location is determined to be nearer the residentlal nelghborhood.

The applicant, Lawrence Morrison, stated that he has had expenditures in preparling for the case, and that the plot plan gave the speciflc location of the proposed church and was drawn up by a professional person. He polnted out that a further delay wlll cost additional money.

Mr. Gardner stated that Staff did not have access to the documents presented at the previous meeting, but there is no problem with the advertising, as the legal description covered the entire tract from which the 7/10-acre plot was taken. He polnted out that the appllcant was asked If the proposed site is located across the street from the store to the north, and Mr. Morrlson answered In the afflrmatlve; however, the subject tract ls across, and approximately $300^{\prime}$ down the street, from the store.

Ms. Hubbard informed that the appllcant may also need screening and setback rellef. She suggested that Mr. Morrison make appllcation for a Bullding Permit and allow that department to conduct a thorough review of the case to determine if additional rellef is required.

Mr. Jones Informed that, if required, the appllcation can be readvertlsed and ready for rehearling on October 19, 1989.

## Board Action:

Mr. Kopet stated that the property was annexed Into the City on December 28, 1951, with the tax service beginning operation at this location March 17, 1951.

## Comments and Questions:

Mr. Jackere asked if Mr. Boman purchased the property on March 17, 1951, and the applicant answered in the affirmative. He polnted out that Mr. Boman was divorced in December of 1951 and at that time the tax service had been generating revenue in the amount of $\$ 1500$ per year. The appllcant stated that Mr. Boman is deceased.

Mr. Fuller asked if there are other businesses in this area along Pine Street, and the appllcant replled that Max Cleaners is approximately $11 / 2$ blocks from the subject property.

Mr. Jackere advised that the only issue before the Board at this time is if the tax consulting and bookkeeping business is a nonconforming use.

In reply to Mr. Bolzle, Mr. Jackere polnted out that the existence of the business at the time of the annexation could be proved by evidence provided by someone that had done buslness with the company at that tlme, or tax records of the initlal owner; however the previous owner is deceased and records are not avallable.

He informed that Mr. Brody did not llve at this location when he acquired the business, but the back portion of the house was used as temporary quarters for tax consultants during the peak season. He polnted out that the employees worked approximately 16 hours durlng these busy times.

Mr. Jackere polnted out that the Code does not allow a nonconforming use to expand, and the Board will be required to determine if the business is nonconforming, and if so, whether or not the business has expanded or changed in character.

KIrk Larkin, 816 Lexington Road, Sapulpa, Oklahoma, stated that he purchased the tax business from Mr. Kopet In November of 1988, and currently has a contract to purchase the property, contingent upon the Board's approval of this appllcatlon. Photographs (Exhlblt ) of commerclal uses along Pine Street were submitted. He asked the Board to allow the continuance of a use that has been conducted at this location for approximately 30 years.

Mr. Jackere asked Mr. LarkIn If he has employees, and he replled that he and two employees wlll operate the business.

Mr. Fuller stated that, according to letters from surrounding property owners and evidence supplled by the appllcant, it appears that the business was probably in operation nine months before annexation of the addition.

Ms. White remarked that she is of the opinlon that the business is probably nonconforming, but feels that it has been expanded over the years.

Mr. Gardner polnted out that, if Inclined to find the business nonconforming, the Board could determine to what extent the business is nonconforming. He stated that the appllcant could be required to malntaln the residential character of the existing structure, Ilmit the amount of signage, and limit the number of employees for the busIness.

In response to Ms. White, Mr. Larkin stated that he and three employees wlll operate the business durlng the peak season.

## Action Requested:

Varlance - Section 122.13 General Use Conditions for BusIness Signs Use Unit 13 -Request a varlance to permit a flashing sign within 200' of an "R" Zoned distrlct.

Appeal - Section 1650 - Appeals From an Adminlstrative Officlal Request an appeal from the bullding inspectors interpretation in regards to a flashing sign, located Southwest corner of Garnett Road and 1-44 Expressway.

## Presentation:

The applicant, Joe Westervelt, QulkTrlp Corporation, 901 North Mingo, Tulsa, Oklahoma, requested permission to Install a gasollne price sign at the above stated location. He polnted out that the sign in question will be the same as other QuikTrlp gasollne signs in the City. Mr. Westervelt stated that he ls appeallng the Bullding Inspector's Interpretation that the sign is flashing, and noted that the time and temperature signs are currently allowed, whlle the QuikTrlp gasollne signs are still belng determined to be flashing. He stated that he is aware of the fact that a future sign ordinance is pending, but requested that the price changing sign currently used by QulkTrip be allowed by right during the Interim.

## Comments and Questions:

Mr. Gardner stated that the Board has previously placed a condition on the approval of the gasollne price signs, which regulated the time perlod between changes ( 3 seconds on and 1 second off). He suggested that the previously approved signs may be changing more rapldy than the Imposed condition allows.

Mr. Westervelt Informed that the gasollne price change sequence for all QulkTrlp signs has been adjusted to be completed in 10 seconds.

Ms. Hubbard advised that, according to the case map, the appllcation may not be properly advertised.

There was discussion concerning the exact location of the sign, and If the appllcation was properly advertised. It was determined that the case report map is Incorrect and that the appllcation was properly advertised.

Mr. Gardner polnted out that the sign ordinance, when adopted, could be more restrictive than the conditions Imposed by this Board.

Mr. Jackere stated that the Board should determine the exact time Interval between the changes of the gasolline prices.

Mr. Gardner polnted out that, In the prevlous varlance approvals of the QulkTrlp signs, the hardshlp was found to be the fact that the ordinance does not deflne a flashing sign; therefore, the Board has determined that the changing of the gasollne prices at a slow rate of speed is not a flashing sign.

## Protestants:

One letter of protest (Exhlblt G-1) from an area resident was submitted to the Board.

Mr. Jackere suggested that, if Inclined to reverse the declsion of the Bullding Inspector, the Board should be speciflc as to the nature of the frequency of the change.

Mr. Chappelle stated that he is Inclined to uphold the decision of the Bullding Inspector, and approve the varlance.

Mr. Westervelt relterated that the three prices complete the change cycle in 10 seconds, and pointed out that a person could manually change the sign and cause no problem, but the fact that the sign is changed electronlcally seems to cause a problem.

Mr. Jackere asked if only this specific type of sign would be affected by the Board's decision, and Mr. Jackere replled that any sign that would meet the same criterla would be affected.

Case No. 15248 (continued)
Mr. Chappelle's motion to uphold the declsion of the Bullding Inspector and approve the varlance dled for lack of a second.

## Proposed Settlenent for Case No. 14604

Alan Jackere, City Legal Department, stated that in 1988 the Board heard Case No. 14604, which concerned the BI-Lo Food Warehouse. He stated that the Code requires that a screening fence be erected on all boundarles that are abutting (touching or separated by a non-arterlal street) residentlal districts, and the north and east one-half of the property in question would require screening (6' privacy fence). It was noted that the eastern boundary would have required screening from the northernmost point, approximately two-thirds of the way down. The applicant appearing at that time stated that he was not advised during the bullding permit process that a screening fence was required and the buliding was designed wlthout screenlng belng considered. Mr. Jackere stated that screenlng was mentioned on the Occupancy Permit, however, the bullding was occupled without the Installation of screening. He polnted out that the appllcant appeared before the Board for a varlance of the screening requirement and the Board granted a modiflcation of the screening fence at the northeast corner only (unloading access polnt). He explalned that large dellvery trucks enter and backed out into the residential nelghborhood, causing a

problem for both the applicant and the residents of the area. Mr. Jackere stated that the applicant appealed the decision approximately two years ago, and the ownership has changed since that time. He pointed out that he has been working with Mr. Johnsen, the attorney that filled the appeal, and with the protestants. It was noted that Ms. Pace, and Ms. Pace's daughter, who is a resident of the area, were present at the meeting and voiced concerns that the crates and other items were visible. Mr. Jackere stated that he has met with the attorney and the interested parties and they have arrived at a satisfactory solution. He informed that all parties agreed with the requirement of a 61 stockade screening fence on the north and east sides of the property (except for the access points) taper lng to 31 at the three access points to allow clear traffic visibility, as well as protect the neighborhood.
