Case No. 16471 (continued)

Presentation:

The applicant, **Dean Cristopoulos**, 7020 South Yale, #270 was represented by **Vern L. Suess**, who submitted a revised site plan (Exhibit C-1) for a proposed dwelling. He informed that the livability space requirement is 5000 sq ft, and the lot area of the lot in question is 4845 sq ft. Mr. Suess stated that the lot is irregular in shape, and requested that the required rear yard be reduced from 25' to 20', with side yards being 5'.

Comments and Questions:

Mr. Bolzle asked if the variance of the rear yard setback from 25' to 20' is the only difference in this application and the one previously heard, and Mr. Suess answered in the affirmative.

Protestants:

None.

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 4-0-0 (Bolzle, Chappelle, Doverspike, T. White "aye"; no "nays"; no "abstentions"; S. White, "absent") to **APPROVE** a **Variance** of the required side yard from 10' to 5', variance of the required rear yard from 25' to 20' and a variance of the required livability space - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6; per revised plan submitted; finding a hardship demonstrated by the curvature of the street, the irregular shape of the lot and the fact that the subdivision was platted prior to current Zoning Code requirements; on the following described property:

Lot 2, Block 7, Terwilliger Heights, City of Tulsa
Tulsa County, Oklahoma.

Case No. 16472

Action Requested:

Special Exception to permit a bank drive-in facility in an OL zoned district, and for a variance of the required setback from the centerline of South Utica from 100' to 55' - **SECTION 601. PRINCIPAL USES PERMITTED IN THE OFFICE DISTRICTS** - Use Unit 11, located 1514-1524 South Utica.

Comments and Questions:

Mr. Bolzle informed that he will abstain from hearing Case No. 16472.

Presentation:

The applicant, **Heiliger, Inc.**, 7170 South Braden, Suite 170, was represented by **Charles Norman**, 2900 Mid-Continent Tower. He advised that Bank of Tulsa is proposing to install a drive-in banking facility (six lanes) on the subject property, and is requesting a variance of the required setback from the centerline of South Utica Avenue. Mr. Norman explained that existing apartment buildings will be removed and the land will be graded to the level of Utica, which will prevent access to the alley to the west. He informed that the entrance to the facility will be located on the north side of the lot, and the Traffic Engineering Department has requested that the previously submitted plot plan be modified to narrow the exit drive to 26'. Mr. Norman advised that extensive screening and landscaping will be installed on the north, south and west sides of the property, and all lighting will be installed on the interior walls of the fence. He pointed out that the lights will not be visible outside the project boundaries. A plot plan (Exhibit K-1) and photographs (Exhibit D-2) were submitted.

Comments and Questions:

Mr. Doverspike noted that Utica is heavily traveled at this location, and asked if the exit could be limited to right turns only. Mr. Norman suggested that this type of restriction could cause traffic to be channeled into the residential neighborhood. He pointed out that there are businesses at the nearby intersection that have entrances on Utica, and they are operating successfully with a much larger volume of traffic than will be generated by the proposed drive-in bank facility.

Protestants:

Tony Laizure, who represented the Swan Lake Neighborhood Association, stated that the residents of the area are opposed to the application. He stated that ingress and egress, along with traffic congestion, is a neighborhood concern, because the intersection at 15th Street and Utica Avenue is the eighth most dangerous intersection in Tulsa. He stated that the bank will create a potentially dangerous problem and asked the Board to deny the application. Mr. Laizure suggested that the historical buildings in the area be preserved.

Pam Deatherage, Planning District 6 chairman, noted that the hospitals in the area generate a lot of traffic, and the proposed location is not an appropriate site for a drive-in bank facility.

Case No. 16472 (continued)

Interested Parties:

Ms. Jim Cline, 1510-1512 South Utica, stated that she owns the remaining apartment building to the north, and pointed out that the subject structures are in bad repair and the proposed facility would be an improvement to the neighborhood.

Applicant's Rebuttal:

Mr. Norman advised that the property in question is not a part of the historic preservation district. He pointed out that the driveway entrance is farther from the intersection than many other businesses in the area, and the approval of the plan by Traffic Engineering should alleviate any neighborhood concerns.

Board Action:

On **MOTION** of **T. WHITE**, the Board voted 3-0-1 (Chappelle, Doverspike, T. White "aye"; no "nays"; Bolzle, abstaining"; S. White, "absent") to **APPROVE** a **Special Exception** to permit a bank drive-in facility in an OL zoned district, and for a variance of the required setback from the centerline of South Utica from 100' to 55' - **SECTION 601. PRINCIPAL USES PERMITTED IN THE OFFICE DISTRICTS** - Use Unit 11; per plan submitted; finding the banking facility to be compatible with surrounding uses; and finding that the area was developed prior to the current setback requirements and numerous existing buildings along Utica Avenue extend into the required setback; on the following described property:

Lots 4, 5 and 6, Block 2, Orcutt Addition, City of Tulsa, Tulsa County, Oklahoma.

BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** and **SECTION 210.B.5. PERMITTED OBSTRUCTIONS IN YARDS** - Use Unit 6, located 246 East 27th Street.

Presentation:

Mr. Bolzle asked if the owner of the property is aware of the application, and Mr. Rabon answered in the affirmative.

Mr. Doverspike inquired as to the length of treatment, and Mr. Rabon informed that the minimum time is 6 months. He added that approximately 100 beds will be provided.

Protestants:

Ms. Russell submitted one letter of protest (Exhibit F-2) from **Robert Downing**.

Eric Bolusky, 1839 East 63rd Street, District 18 chairman, suggested that the applicant file a Planned Unit Development to ensure that the surrounding property owners be made aware of the intentions of the organization. He stated that the proposed use may not be in harmony with the industrial uses in the area.

A representative of Scout Development Corporation stated that he is opposed to the application, due to the lack of clarity as to the use of the property. He stated that the use, as he understands it, is inconsistent with the IL zoning and would be detrimental to the surrounding uses.

Steve Mackey stated that he is representing Helmerich and Payne, property owners on the northeast corner of 51st Street and Garnett Road. Mr. Mackey stated that he is opposing the application for the same reasons brought forth by the preceding protestants.

Applicant's Rebuttal:

Mr. Rabon stated that the treatment center would not be detrimental to the surrounding area, and the location of the property near the expressway would be an advantage to the organization.

Additional Comments:

Mr. Doverspike asked if the property is fenced, and Mr. Rabon answered in the affirmative.

The applicant, **Charles Norman**, 2900 Mid-Continent Tower, submitted a plot plan (Exhibit R-1), and requested the removal of the screening requirement along South St. Louis Avenue (east side) at this location. He informed that the street provides a separation between the subject property and the residentially zoned property, which contains a non-residential use. He informed that screening will be installed along the north, south and west property lines, as required by the Code.

Case No. 16492

Action Requested:

Variance of the required setback from the centerline of East 41st Street and South Harvard to permit temporary buildings and open air display, variance of the 25' setback from abutting R Districts, a variance to permit construction across zoning district lines and a minor variance to amend a condition of approval - **SECTION 702.B.1. Accessory Use Conditions** - Use Unit 2, located southeast corner of East 41st Street and South Harvard Avenue.

Presentation:

The applicant, **Roy Johnsen**, 201 West 5th Street, submitted a plot plan (Exhibit S-1) and stated that the Christmas tree sales lot was previously approved by the Board; however, a recent ordinance change for open air displays and tents requires that the applicant seek additional relief. He explained that the change requires that open air displays and tents now have the same setback from the street as permanent structures. Mr. Johnsen stated that the displays and tents will be in the same location as they have been in previous years, however, the new ordinance requires that his client seek Board approval for them to be installed. Photographs (Exhibit S-2) were submitted.

Comments and Questions:

Mr. Doverspike pointed out that the Board is not reconsidering the conditions that were imposed when the application was approved in August 1993. He informed that the issue before the Board at this time is whether or not the display and tents can be placed at their usual location, and if an additional ingress can be installed to the west on 41st Street.

Mr. Doverspike asked if the proposed entrance to the west is in the same location as it has been in previous years, and Mr. Johnsen replied that it has been moved slightly to the east.

Protestants:

The resident at 4135 South New Haven Place stated that he is opposed to the business creeping into a stable residential neighborhood, and asked that the application be denied. He informed that he was unable to attend the previous meeting when the Christmas tree lot was approved.

Case No. 16492 (continued)

Mr. Bolzle noted that all buildings will be at the same location as in previous years, and this application will not permit farther encroachment into the residential neighborhood.

Bruce Bennett, 4133 South Jamestown, stated that the information that the neighborhood received is very vague, and added that he would welcome an improvement in the traffic flow. He noted that the Christmas tree lot continues to encroach into the residential neighborhood.

Penny Tipton, 3709 East 43rd Place, stated that she has lived in the neighborhood many years, and is concerned with the traffic generated by the Christmas tree sales operation. She requested that the entrance to the lot be limited to Harvard Avenue.

Applicant's Rebuttal:

Mr. Johnsen stated that his client has advised him that there has been no expansion of the business in the last 10 years. A plot plan (Exhibit S-1) and photographs (Exhibit S-2) were submitted.

Mr. Doverspike asked Mr. Johnsen if the prior approval of the sales lot was for one year only, and he answered in the affirmative.

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 4-0-0 (Bolzle, Chappelle, Doverspike, T. White "aye"; no "nays"; no "abstentions"; S. White, "absent") to **APPROVE** a **Variance** of the required setback from the centerline of East 41st Street and South Harvard to permit temporary buildings and open air display, variance of the 25' setback from abutting R Districts, a variance to permit construction across zoning district lines - **SECTION 702.B.1. Accessory Use Conditions** - Use Unit 2; subject to covered tree storage being located 30' west of the east property line; subject to the approval of the variances being for the 1993 Christmas season only; finding that the sales lot has been approved for 1993, and requires yearly approval by the Board; finding that the relief is required to comply with the newly revised ordinance requiring all temporary structures to comply with building setback requirements.

Case No. 16492 (continued)

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 3-1-0 (Bolzle, Chappelle, T. White "aye"; Doverspike, "nay"; no "abstentions"; S. White, "absent") to **APPROVE** a **Minor Variance** to amend a condition of approval to permit a second curb cut to the west on 41st Street - **SECTION 702.B.1. Accessory Use Conditions** - Use Unit 2; per plan submitted; subject to all curb cuts being in compliance with City Traffic Engineering; on the following described property:

Lots 1 and 2, and the west 100' of Lots 25 and 26 and the east 100' of Lot 3, Block 1, Villa Grove Heights One Addition, City of Tulsa, Tulsa County, Oklahoma.

Case No. 16493

Action Requested:

Special Exception to modify or remove the required screening around parking areas - **SECTION 1303.E. DESIGN STANDARDS FOR OFF-STREET PARKING AREAS** and **SECTION 212.C. Modification of the Screening Wall or Fence Requirements** - Use Unit 5, located 3rd Street between South College Avenue and South Evanston Avenue.

Presentation:

The applicant, **Ted Sack**, 110 South Hartford, Suite 131, was represented by **Charles Norman**, 2900 Mid-Continent, who explained that a special exception was previously approved to permit the construction of a children's day care center on the campus of Tulsa University, subject to a submitted site plan. He informed that the City Building Inspector has determined that a screening fence is required on the two streets to the east and along the south boundary. Mr. Norman pointed out that, although the day care center does not require screening, the accessory parking does require a screening fence. He informed that the revised plot plan (Exhibit T-1) contains a lot that was inadvertently omitted in the previously approved application. Mr. Norman submitted photographs (Exhibit T-2) and noted that the parking lot is 62' from the south lot line, and the street right-of-way on College Avenue and 3rd Street separates the parking lot from the lot lines across the street by more than 50'. He informed that it has been determined by the zoning officer that the street itself constitutes a lot line, therefore, a screening fence is required along the street frontage, even though the parking area is more than 50' from the lot line on the other side of the street. Mr. Norman noted that the previously approved

Case No. 16493 (continued)

plan depicts berms and tree plantings along the boundary lines. He asked that the Board find that the street does not constitute a lot line or to approve the modification of the fencing requirements. Mr. Norman informed that the center is nearing completion and the issue must be resolved in order to obtain an occupancy permit.

Comments and Questions:

Mr. Jackere advised that the Board could make an interpretation as to whether or not the street constitutes a lot line, as well as considering the special exception request.

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 3-0-1 (Bolzle, Doverspike, T. White "aye"; no "nays"; Chappelle, "abstaining"; S. White, "absent") to make a **FINDING** that intervening streets do not constitute lot lines in common within the meaning of Section 1302.E., and would not require screening in Case No. 16493; and to **APPROVE** a **Special Exception** to remove the required screening around parking areas - **SECTION 1303.E. DESIGN STANDARDS FOR OFF-STREET PARKING AREAS** and **SECTION 212.C. Modification of the Screening Wall or Fence Requirements** - Use Unit 5; per plan submitted; finding that the planting of greenery and the installation of berms to be adequate screening; finding that the actual parking lot is 50' from the lot lines across the street, and 62' from the abutting residential area to the south; on the following described property:

Lots 1, 6, 7, 8 and the N/2 of Lot 2, Block 9, Pleasant View Addition, City of Tulsa, Tulsa County, Oklahoma.

Case No. 16494

Special Exception to reduce the required front yard from 25' to 20' to permit a covered porch - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6, located 1065 North 78th East Avenue.

Presentation:

The applicant, **Robert Kelley**, 1065 North 78th East Avenue, submitted a plot plan (Exhibit V-1) and informed that the front porch will encroach 5' into the 25' required front yard.

Case No. 16494 (continued)

Comments and Questions:

Mr. Bolzle asked if the porch is existing, and the applicant informed that the concrete slab is in place, and a cover is proposed. He explained that the pitch of the roof to the house is being altered and he would like to build a porch.

Protestants:

None.

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 3-0-0 (Bolzle, Chappelle, T. White "aye"; no "nays"; no "abstentions"; Doverspike, S. White, "absent") to **APPROVE** a **Special Exception** to reduce the required front yard from 25' to 20' to permit a covered porch - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6; per plan submitted; subject to the porch remaining unenclosed; finding that approval of the request will not be detrimental to the area; on the following described property:

Lot 18, Block 10, Dollie-Mae Addition, City of Tulsa, Tulsa County, Oklahoma.

Case No. 16495

Action Requested:

Variance of the required 5000 sq ft of livability space - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6, located 1216 East 26th Street.

Presentation:

The applicant, **Vaughn Graham**, 1216 East 26th Street, submitted a plot plan (Exhibit W-1) and explained that he is proposing to construct an addition to an existing dwelling. He informed that the new portion will be built on an existing slab.

Comments and Questions:

Mr. Chappelle inquired as to the amount of available livability space on the lot, and the applicant stated that there will be approximately 4000 sq ft, or 1000 sq ft less than the required amount.

Case No. 16495 (continued)

Protestants:

None.

Board Action:

On MOTION of BOLZLE, the Board voted 3-0-0 (Bolzle, Chappelle, T. White "aye"; no "nays"; no "abstentions"; Doverspike, S. White, "absent") to **APPROVE** a Variance of the required 5000 sq ft of livability space - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6; per plan submitted; finding that the lot is irregular in shape, and the construction is consistent with the surrounding neighborhood; on the following described property:

Lot 9, Block 11, Sunset Terrace, City of Tulsa,
Tulsa County, Oklahoma.

Case No. 16496

Action Requested:

Variance of the required setback from the centerline of East 21st Street from 50' to 45.5' to conform with current property lines, located southwest corner of East 21st Street and South Utica Avenue.

Presentation:

The applicant, **Patrick Fox**, 1560 East 21st Street, Suite 300, submitted a plot plan (Exhibit X-1) and informed that he is representing the owners of the subject property. He explained that the 46,000 sq ft project will accommodate 201 vehicles, with 65 percent of the structure being designated for office use and 35 percent for retail. Mr. Fox stated that three single family residences will be constructed on the RS-2 property to the south.

Comments and Questions:

Mr. White asked if ingress and egress will be on 21st Street, and the applicant stated that the property will be accessed from four different points. He explained that ingress and egress for the retail uses will be on 21st Street and on Utica Avenue, and the parking garage below will also have access to these streets. Mr. Fox informed that Traffic Engineering (Exhibit X-2) has reviewed the proposal.

Protestants:

Tom Jewell, 1557 East 22nd Street, stated that his residence is three houses from the proposed commercial endeavor. He noted that the project will cause increased traffic to be channeled into the residential neighborhood.

Case No. 16496 (continued)

Jeannie Cullinan, 1562 East 22nd Street, stated that she is impressed with the project; however, voiced a concern that traffic questions have not been adequately addressed.

Helen Corkran, 2208 South St. Louis, is concerned with encroachment into the established residential neighborhood.

Mr. Bolzle stated that the applicant is only asking to build up to the property line (a difference of 4½').

Applicant's Rebuttal:

Mr. Fox stated that additional right-of-way has been taken since the owner purchased the property. He added that the project is in conformance with the new parking standards that will be finalized on January 1, 1994. Mr. Fox pointed out that the 4½' variance will in no way add to the development square footage of the project, but will allow sufficient space to properly detail the building. He noted that the hardship for the variance request is the irregular and narrow shape of the lot.

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 3-0-1 (Bolzle, Chappelle, T. White "aye"; no "nays"; Doverspike, abstaining"; S. White, "absent") to **APPROVE** a **Variance** of the required setback from the centerline of East 21st Street from 50' to 45.5' to conform with current property lines; per plan submitted; finding a hardship imposed by the irregular, narrow-shaped tract, and the fact that all construction will be at the current building setback line; on the following described property:

Lot 4, Block 1, Terwilliger Heights, and Lots 1-5, Terwilliger Terrace, City of Tulsa, Tulsa County, Oklahoma.
