He asked that the automobile repair business be permitted to remain at the current location. Photographs (Exhibit C-1) were submitted.

Comments and Questions:

Ms. Russell informed that the Code Enforcement officer advised that the storage of inoperable vehicles on the lot was the major reason for the protest. She stated that the use appears to be compatible with the area.

Mr. Moore explained that the vehicles in question belonged to customers that left them for repair and failed to pick them up. He informed that all inoperable vehicles have recently been removed from the lot.

Mr. Doverspike asked if the parking area for the garage is hard surface, and Mr. Moore answered in the affirmative.

Case No. 16693

Action Requested:

Variance to amend a condition of approval of a previously approved Board case and clarification of a condition of approval to permit storage of chrome bumpers without change in the condition that chrome plating will cease - Use Unit 25, located 18420 East Admiral Place.

Presentation:

The applicant, **Joseph Hull, III**, 1717 South Cheyenne Avenue, stated that he is representing the owner of the property, who was issued a citation by Ms. Parnell, a Code Enforcement officer. He informed that Ms. Parnell determined that the fence was not installed at the location stipulated in the previously approved conditions, and asked that it be permitted to remain at the current location. Mr. Hull noted that the existing fence is 104' from the south residential property line, and pointed out that it is difficult to operate the business without utilizing more of the property. The applicant also requested that his client be permitted to store chrome bumpers on the lot, even though the chrome plating portion of the business has been moved to another location. Photographs (Exhibit D-2) were submitted.

Comments and Questions:

~~Mr. Doverspike asked if the fence was installed after the initial hearing concerning the business, and Mr. Hull answered in the affirmative.~~

Mr. Doverspike stated that it was not the intent of the Board to restrict the sale of chrome bumpers at this location after the chroming business was moved to another site.

Case No. 16693 (continued)

Mr. Doverspike asked if the fence is approximately 100' over the required installation line previously approved by the Board, and the applicant answered in the affirmative.

Mr. Bolzle inquired as to why the applicant agreed to the previous conditions and is now requesting a change, and **Fred Phillips**, manager of the business, replied that he thought at that time that the business could be operated on half of the property. He stated that it was later determined that there was not sufficient space for storage, and the fence was moved back.

Mr. Hull stated that his client found he could not economically operate his business on just half of the property.

Mr. Doverspike noted that the Board previously determined that the installation of the fence at the designated location would reserve an open space as a buffer between the business and the residential area.

Mr. Bolzle stated that he was supportive of the fence at the designated location, because it would reduce the use to one-half the original size.

Mr. Doverspike asked Ms. Parnell if it is her finding that the applicant has corrected any Code violations that existed on the property at the time of the first hearing.

Ms. Parnell informed that the property has not been brought into compliance with the Code. She stated that it is poorly maintained, with junk and material remaining on the rear portion of the tract. She added that tall weeds continue to be a problem.

Mr. Bolzle stated that he finds the request to be a 60% expansion of a nonconforming use, and the applicant has failed to presented a hardship.

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 3-0-0 (Bolzle, Doverspike, T. White, "aye"; no "nays"; no "abstentions"; Chappelle, S. White, "absent") to **CLARIFY** that a condition of approval did permit the storage of chrome bumpers without change in the condition that chrome plating will cease Use Unit 25.

On **MOTION** of **BOLZLE**, the Board voted 2-1-0 (Bolzle, T. White, "aye"; Doverspike, "nay"; no "abstentions"; Chappelle, S. White, "absent") to **DENY** a **Variance** to amend a condition of approval of a previously approved Board case ; finding that the conditions were imposed to limit the use and a hardship was not evident for the variance request.

The application was denied, due to the lack of three affirmative votes for approval.

Case No. 16694

Action Requested:

Presentation:

The applicant, ~~Rachel Zebrowski~~, 320 South Boston, #1400, submitted a plot plan (Exhibit E-2) for the project in question. She informed that the existing building is encroaching into the required setback and an existing exterior stairway will be enclosed and a ramp will be installed. Ms. Zebrowski noted that the proposed location is the only available space for the construction. Photographs (Exhibit E-1) was submitted.

Interested Parties:

~~Terry Wilson~~, District 5 planning chairman, stated that he is supportive of the improvements on the property (Exhibit E-3).

Comments and Questions:

In response to Mr. Bolzle, Ms. Zebrowski informed that the required setback is 25', and the building currently encroaches 5'. She added that the new construction will not extend closer to the street than the existing exterior wall.

Mr. Bolzle asked if the setback from the centerline of the street will be reduced from 55' to 40', and Ms. Russell answered in the affirmative.

Protestants:

None.

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 3-0-0 (Bolzle, Doverspike, T. White, "aye"; no "nays"; no "abstentions"; Chappelle, S. White, "absent") to **APPROVE** a Variance of the required setback from the centerline of South Lakewood Avenue from 55' to 40' - **SECTION 603. Case No. 16695

Action Requested:

Variance of the required setback from an R District to permit a changing copy message board - **SECTION 1221.C.2.C. General Use Conditions for Business Signs** - Use Unit 13, located 2306 South Sheridan Road.

Presentation:

The applicant, **Oklahoma Neon**, 6550 East Independence, was represented by **Glen Tucker**, who submitted a plot plan (Exhibit F-1) and requested permission to install a flashing sign within 200' of a residential zoned district. He informed that some objections to the sign are the proximity to the school and the projection of light into nearby residential homes. Mr. Tucker stated that candle power is the issue in lighted signs, because it measures the projection of the light. He stated that the prior use had lights that were 55 watts, and the proposed sign has 15 watts, with a reduction to 10 watts after dark. Mr. Tucker stated that his client has agreed to turn the flashing lights off during school hours and will install a 10' fence to protect the residential area.

Comments and Questions:

Mr. Doverspike asked if the location of the proposed sign is 30' from the south property line, and Mr. Tucker answered in the affirmative.

In response to Mr. Bolzle, Mr. Tucker informed that a message runs across the sign and it does not flash on and off.

Mr. Doverspike asked Mr. Tucker to state the hardship for the variance request, and he replied that the sign in question cannot be installed on the property and comply with the 200' setback requirement. He informed that the size of the previous sign was 200 sq ft and the proposed sign is 33 sq ft.

Protestants:

Terry Wilson, District 5 planning chairman, stated that he has reviewed the site and voiced a concern with the movable copy across the sign. He stated that the sign would be in competition with the school zone light, and would be near the access points for the library and the residential area. He stated that the sign could create a hazardous situation for motorists and asked the Board to deny the application.

Applicant's Rebuttal:

Mr. Tucker stated that a determination has never been made that flashing signs cause accidents. He informed that his client would be amenable to turning the sign off during the time the school zone sign is in operation.

In response to Mr. Doverspike, **Robert Deadman**, manufacturer of the sign, stated that a 15-watt bulb will be utilized for this sign, which will automatically be reduced by two-thirds after dark.

Case No. 16695 (continued)

In reply to Mr. Doverspike, Mr. Deadman stated that the proposed lighting will be only one-third of the wattage that was previously used at this location.

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 2-1-0 (Bolzle, T. White, "aye"; Doverspike, "nay"; no "abstentions"; Chappelle, S. Mr. Doverspike's motion for approval died for lack of a second.

Presentation:

The applicant, **Garland Sivers**, 1444 South Florence Avenue, submitted a plot plan (Exhibit G-1) and requested permission to construct an accessory building in his back yard. He informed that the property has two zoning classifications (OL/CH), but has been used for residential purposes for approximately 50 years.

Comments and Questions:

Mr. Doverspike inquired as to the use of the proposed building, and Mr. Sivers stated that he will use the structure for a hobby workshop.

In reply to Mr. Doverspike, the applicant stated that the building will not be used for commercial purposes.

Protestants:

None.

Presentation:

The applicant, **Debra Tidwell**, 6921 East Newton Place, informed that her home occupation was previously approved by the Board and she was not aware that a condition of approval was to install a hard surface driveway at this time. She informed that a hard surface driveway will be installed in the future. Ms. Tidwell explained that the building permit has not been issued because the driveway has not been surfaced, and requested that a temporary gravel driveway be permitted for approximately two years. The applicant asked that she be permitted to operate the beauty shop in her home, if all permits are not acquired.

Comments and Questions:

Mr. Doverspike asked the applicant if she is currently operating the beauty shop in the accessory building, and she answered in the affirmative.

Protestants:

Brian Ipock, 13409 South 86th East Avenue, Bixby, Oklahoma, stated that he owns three residential dwellings in the area, and that the applicant has not complied with previously imposed conditions. He asked the Board to deny the request.

Dennis Wiley stated that he owns the property across the street from the applicant, and informed that two chairs are already in place in the accessory building. He stated that gravel has been thrown on his cars when individuals are quickly backing out of Ms. Tidwell's driveway.

Mr. Jackere advised the applicant that the Board has limited the operation to only one chair.

Ben Frizzell, 6919 East Newton Place, submitted a petition of opposition (Exhibit J-1) and informed that he lives next door to the subject property. He requested that the Board uphold the previous decision requiring a hard surface driveway for the beauty shop. Applicant's Rebuttal:

Ms. Tidwell stated that the City will not issue a building permit to allow her to complete the building repairs until the parking area is hard surfaced or temporary gravel parking is approved by the Board.

The applicant, **Gary Keele**, 8210 South 1st Street, Broken Arrow, Oklahoma, stated that he is representing Cooper Properties. He submitted a plot plan (Exhibit K-1) and explained that an error was made and the existing dwelling was constructed 8' over the building setback line.

Comments and Questions:

Mr. Doverspike asked if the corner of the garage extends over the setback line, and the applicant answered in the affirmative.

Protestants:

~~Larry Duke~~, Gilcrease Homeowners Association, 1919 West Seminole, voiced a concern that Mr. Cooper's builders have built over the setback line on another occasions, and the house in question was also constructed without review by the Architectural Review Committee.

Mr. Doverspike asked if the association objects to the granting of the variance request, and he replied that the association requests a denial of the application.

Mike Hackett, 406 South Boulder, attorney for the Gilcrease Homeowners Association, advised the Board that he is concerned with covenants concerning the Holly Heights addition, which is being developed by Mr. Cooper. He stated that they would like to have uniformity in area development.

Case No. 16701 (continued)

Comments and Questions:

Mr. Bolzle inquired as to the terrain on the lot, and Mr. Keele stated that the house in question is at the bottom of a steep hill.

Mr. Doverspike asked if the house could have been moved back to comply with the setback, and Mr. Keele stated that this would have been possible.

James Cooper, 6839 East 106th Place, informed that he has constructed four homes in the Gilcrease area, and all have been reviewed by the Architectural Review Committee and approved prior to construction, including the house in question. He pointed out that the house in question is at the bottom of the hill and in a cul-de-sac, and the real issue seems to be the development of the Holly Heights Addition.

Mr. Bolzle stated that he would like to view the property before making a decision on the variance request.

Comments and Questions:

Mr. Doverspike asked if there is a wall sign on the building, and Mr. Griffith stated that there is an existing wall sign that will be utilized.

Mr. Doverspike advised that additional relief will be required if the wall sign is left in place.

It was the consensus of the Board that one wall sign and one pole sign would be appropriate for the property.

Mr. Wilkerson explained that the business is a typical dry cleaning operation and is not an industrial plant.

Case No. 16710 (continued)

Protestants:

Cliff Hobson informed that he owns the property at 3834 South Peoria, which abuts the subject tract to the north. He stated that he is opposed to the design of the building, because all delivery trucks must access the property from his parking lot or from the alley to the west. Mr. Hobson noted that this has been an ongoing problem since Yale Cleaners has been operating at this location. He pointed out that the truck that services the chemical tank is forced to park on his property or the alley and, if the building is extended to the west, the tank will not be accessible from the alley. Mr. Hobson noted that the building seems to be designed to include the use of his property, and suggested that they expand to the south and eliminate further problems.

Applicant's Rebuttal:

Bill Rothrock, owner of Yale Cleaners, stated that the chemical storage tank is filled only once a year. He remarked that the former owner of the property was apparently using Hobson's property; but he has eliminated this problem for his business by purchasing the abutting lot to the south for customer and employee parking. Mr. Rothrock stated that he is amenable to constructing a fence to ensure that his customers do not travel across Mr. Hobson's property.

Dana Hudson, 10842 East Newton Place, stated that there is sufficient space to fill the chemical tank from the alley.

Mr. Rothrock stated that he has notified his employees to park only on the provided parking area.
