Protestants:

None.

Board Action:

On **MOTION** of **DOVERSPIKE** the Board voted 4-0-0 (Abbott, Doverspike, Turnbo, White, "aye"; no "nays"; no "abstentions"; Bolzle, "absent") to **APPROVE** a **Variance** of the required setback from the centerline of West 37th Place from 50' to 40' and a **variance** of the required setback from an abutting R District from 75' to 40' - **SECTION 903. NEW APPLICATIONS

Case No. 17080

Action Requested:

Variance of the required setback from the centerline of Owasso Avenue from 45' to 35' to permit an addition to the existing dwelling - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6, located 1226 East 31st Court.

Case No. 17080 (continued)

Presentation:

The applicant, **Wiley Parsons Jr.**, 1226 East 31st Court, submitted a plot plan (Exhibit B-1) and informed that a new addition is proposed at the south end of the existing dwelling. He pointed out that the new construction will align with the existing building wall on the west, as well as his neighbor's home to the south. Mr. Parsons stated that the hardship is the fact that the 50' of street right-of-way is disproportionate, with his side of the street having 20' and the other side 30'. He pointed out that, if his dwelling had been constructed across the street, this variance would not be required.

Comments and Questions:

Ms. Turnbo asked if the new addition will extend only to the building wall of the existing dwelling, and Mr. Parsons answered in the affirmative.

In reply to Mr. Doverspike, the applicant stated that the new addition will have one and one-half stories.

Protestants:

None.

BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6; per plan submitted; finding that the existing dwelling encroaches into the required setback and the new addition will not extend closer to the street than the existing building wall; and finding that approval of the request will not be injurious to the neighborhood, or violate the spirit and intent of the Code; on the following described property:

Presentation:

The applicant, **Gary Wingo**, 4849 South Mingo, submitted a plot plan (Exhibit C-1) and explained that he is proposing to construct a new facility that will overhang 10' into the required 75' setback from the R District. He informed that he owns the R^c tract.

Protestants:

None.

Board Action:

On **MOTION** of **DOVERSPIKE**, the Board voted 5-0-0 (Abbott, Bolzle, Doverspike, Turnbo, White, "aye"; no "nays"; no "abstentions"; none "absent") to **APPROVE** a **Variance** of the required setback from an abutting R District from 75' to 65' to permit a day care center - **SECTION 903. BULK AND AREA REQUIREMENTS IN THE INDUSTRIAL DISTRICTS** - Use Unit 11; per plan submitted; finding that the new construction will overhang the property 10' and that approval of the request will not be detrimental to the area; on the following described property:

Commencing at the SW/c Section 30, T-19-N, R-14-E, thence north a distance of 733' to the POB; thence north for 227.81'; thence east for 208'; thence south 227.81'; thence west for 208' to the POB; less the west 24.74' statutory right-of-way and the east 25.25' of the west 50' for right-of-way and utility easement; City of Tulsa, Tulsa County, Oklahoma.

Case No. 17083

Action Requested:

Variance of the required rear yard from 25' to 14' and a variance of the required front yard from 30' to 28' - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6, located 4816 East 84th Street South.

Presentation:

The applicant, **Jack Slankard**, 2336 South 102 East Avenue, submitted a plot plan (Exhibit D-3) and explained that his building lot is irregular in shape and that only a corner of the dwelling encroaches into the required front yard. He asked that a rear yard setback of 14' be approved.

Comments and Questions:

Mr. Doverspike inquired as to the total square footage of the proposed dwelling, and Mr. Slankard replied that it will contain approximately 2900 sq ft of floor space.

In reply to Mr. Doverspike, the applicant stated that the proposed structure is comparable in size to existing dwellings in the neighborhood, and could be smaller.

Protestants:

Patty Basnett, 4810 East 84th Street, stated that she is not opposed to the variance in the front yard, but is opposed to the building line moving closer to her dwelling in the rear. She informed that a variance has already been granted to her neighbor and their house is two and one-half feet from her fence. Ms. Basnett submitted an appraisal report (Exhibit D-2) stating that approval of the variance would diminish the value of her property approximately 10%.

Photographs (Exhibit D-1) were submitted.

Comments and Questions:

Mr. Gardner advised that, because of the street frontage, the applicant could choose 84th Street as his front yard and no relief would be required for the side yard (southwest boundary).

Applicant's Rebuttal:

Mr. Slankard stated that he does not feel that the construction of a \$200,000 home on a vacant wooded lot would devalue his neighbor's property value.

Mr. Doverspike asked the applicant if he is amenable to designating the yard on 84th Street as the front yard, and he replied that this is the street address the City assigned and he has no objection to calling that yard his front yard, per Code.

Case No. 17083 (continued)

Board Action:

On **MOTION** of **DOVERSPIKE**, the Board voted 4-0-1 (Abbott, Doverspike, Turnbo, White, "aye"; no "nays"; Bolzle, "abstaining"; none "absent") to **APPROVE** a **variance** of the required front yard from 30' to 28' - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6; per plan submitted; determining the 84th Street frontage as the front yard, with the result being that a setback variance is not needed on the southwest side; and finding that only the corner of the dwelling encroaches into the required front yard; finding a hardship imposed by the curvature of the street, the irregular shape of the property and street setbacks on three sides of the lot; on the following described property:

Lot 9, Block 3, Brookwood II, City of Tulsa, Tulsa County, Oklahoma.

Case No. 17084

Action Requested:

Variance of the required setback from the centerline of East 15th Street from 50' to 34' to permit a sign - **SECTION 1221.C.6. General Use Conditions for Business Signs** - Use Unit 21, located 1639 East 15th Street.

Presentation:

The applicant, **Gary Quiggle**, 1639 East 15th Street, submitted a plot plan (Exhibit E-2) and requested permission to install a small sign (20" by 24") in the flower bed in front of his business. He pointed out that the sign will be no closer to the street than others in the area and is smaller than most existing signs.

Comments and Questions:

In reply to Ms. Turnbo, the applicant stated that the bottom of the sign will be 2' from the ground and the entire structure will be between 4' and 5' in height.

Mr. Doverspike inquired as to the number of parking spaces required, and Mr. Quiggle stated that 12 spaces are provided and the installation of the sign in one of these require spaces would result in a violation. He pointed out that the building is set back and clients have difficulty in locating the business.

Mr. Beach stated that the sign could obstruct the view of motorists toward the intersection, and Mr. Quiggle stated that he is amenable to changing the height of the sign if necessary.

Ms. Abbott asked if parking spaces are located in front of the business, and the applicant answered in the affirmative.

Case No. 17084 (continued)

Interested Parties:

Jared Bruce, 1602 East 15th Street, informed that he owns a business across the street and is supportive of the request.

In reply to Mr. Bolzle, Mr. White stated that his concerns would be satisfied if the application was approved per Traffic Engineering approval in regard to height and whether it would obstruct the view of motorists in the area.

Board Action:

On **MOTION** of **BOLZLE**, the Board voted 5-0-0 (Abbott, Bolzle, Doverspike, Turnbo, White, "aye"; no "nays"; no "abstentions"; none "absent") to **APPROVE** a **Variance** of the required setback from the centerline of East 15th Street from 50' to 34' to permit a sign - **SECTION 1221.C.6. General Use Conditions for Business Signs** - Use Unit 21; per plan submitted; and subject to Traffic Engineering approval; finding that numerous buildings and signs in the older area do not comply with current setback requirements; and finding that approval of the sign, per conditions, will not be detrimental to the area, or violate the spirit and intent of the Code; on the following described property:

East 47.5' Lots 13 & 14 and east 47.5' S/2, Lot 15, Block 4, and west 10' of vacated alley on east in Lake View Addition, City of Tulsa, Tulsa County, Oklahoma.

Action Requested:

Special Exception to permit an indoor shooting range in an IM zoned district - **SECTION 901. PRINCIPAL USES PERMITTED IN INDUSTRIAL DISTRICTS**, a variance of the required building setback from the centerline of South Zunis from 50' to 25' - **SECTION 903. BULK AND AREA REQUIREMENTS IN THE INDUSTRIAL DISTRICTS** and a variance of the required number of parking spaces from 55 spaces to 45 spaces - **SECTION 1219.D. Off-Street Parking and Loading Requirements** - Use Unit 19, located 1115 South Zunis.

Presentation:

The applicant, **Robert Hinds**, 2215 South St. Louis, requested that a shooting range be permitted on the subject property. He pointed out that the existing building was previously constructed 25' from the centerline of the street, which is the reason for the variance of the required setback. Mr. Hinds noted that 45 parking spaces are available on the lot. He informed that the building will be renovated, and all openings will be sealed and sound proofed to eliminate 90% of the sound. Photographs (Exhibit F-1) were submitted.

Case No. 17085 (continued)

Comments and Questions:

In reply to Ms. Turnbo, Mr. Hinds informed that the shooting range will be utilized by a private club, which has 1100 members. He stated that they currently have an outdoor shooting range at another location. Mr. Hinds informed that the use of the range will vary from four or five members per day to 40 or 50 per day.

Ms. Turnbo inquired as to the number of bays, and the applicant replied that the range area will have approximately 30 firing bays, with the remainder of the building being dedicated to office and classroom use.

In reply to Ms. Turnbo, Mr. Hinds stated that there will be approximately one or two individuals employed at this site.

Ms. Abbott asked the applicant to state the days and hours of operation, and he replied that the shooting range usually operates seven days each week, 10 a.m. to 10 p.m. He informed that the club will assist various groups in the use of the shooting range.

Ms. Turnbo asked if these groups will be scheduled to prevent overcrowding, and Mr. Hinds answered in the affirmative.

In reply to Mr. Bolzle, Mr. Gardner stated that the use would be permitted by right in a CS District.

Protestants:

Suzanne Mordhorst, PO Box 4335, stated that she owns a house at 1132 South Zunis, and is concerned with a shooting range being so close to her dwelling. She stated that she is opposed to the use operating every day from 10 a.m. to 10 p.m. and noted that the individuals visiting the building will park in front of her house. Ms. Mordhorst advised that other residents of the neighborhood are also opposed to the use.

Applicant's Rebuttal:

Mr. Hinds advised that the shooting range is a safety conscious operation and guns are always cased when outside the building. He stated that the neighborhood should support the renovation of the dilapidated building and proper maintenance of the lot. He informed that the organization is attempting to lease the railroad right-of-way behind the property, but is not sure of the outcome of that possibility.

Mr. Bolzle stated that he would be more supportive of the application if the entrance was not on Zunis.

Case No. 17085 (continued)

Ms. Turnbo asked the number of members in attendance at monthly meetings, and Mr. Hinds replied that approximately 80 to 100 members attend these meetings, but many of those attending are couples.

In reply to Ms. Turnbo, Mr. Gardner informed that that the use requires 55 parking spaces and the applicant has stated that he can supply 50 spaces.

Mr. White stated that he feels the neighborhood would be safer with the range operating at this location.

After a lengthy discussion concerning access to the facility, it was the consensus of the Board that the application should be continue to permit the applicant to relocate the access and provide a more detailed plot plan.

Board Action:

On **MOTION** of **ABBOTT**, the Board voted 5-0-0 (Abbott, Bolzle, Doverspike, Turnbo, White, "aye"; no "nays"; no "abstentions"; none "absent") to **CONTINUE** Case No. 17085 to July 11, 1995 to permit the applicant sufficient time to attempt to relocate the access point away from Zunis and provide a detail site plan.

The applicant, **Phil Borden**, 4611 East Admiral Boulevard, informed that he owns the shopping center in question and requested permission for his tenant to operate a beauty school on his property. He advised that the shopping center fronts on 56th Place and a church and parking lot are located on the RS-2 property across the street to the north. Comments and Questions:

In reply to Mr. Bolzle, the applicant stated that there will be 2340 sq ft of classroom space and 23 students will be enrolled.

Mr. Gardner advised that the request for a new use causes the fencing requirement to be addressed at this time. He pointed out that there were no screening requirements when the center was constructed.

Protestants: None.

Mr. White noted that the signs have been installed.

Protestants:

None.

Board Action:

On **MOTION** of **WHITE**, the Board voted 4-1-0 (Abbott, Bolzle, Turnbo, White, "aye"; Doverspike, "nay"; no "abstentions"; none "absent") to **APPROVE** a **Special Exception** to permit two identification signs on Riverchase Apartments and two identification signs for Riverpark at Kensington - **SECTION 402.B.4.b. He informed that the proposed tenant operates a radio station that has regular business hours of 9 a.m. to 5 p.m., with a skeleton crew operating during the evening hours.

Interested Parties:

Ms. Turnbo advised that several letters of support (Exhibit K-2) were received.

Comments and Questions:

In reply to Ms. Abbott, Mr. Stephens clarified that there was a total of 77 spaces at the time he purchased the property, and not a total of 82 as was approved in a previous Board case (BOA-16224). He informed that twelve spaces were added to this number when the additional land was purchased.

Mr. Gardner advised that, if approved, the use should be limited to office use, since nighttime activities create a parking problem in the area.

Protestants:

None.

Board Action:

On **MOTION** of **DOVERSPIKE**, the Board voted 5-0-0 (Abbott, Bolzle, Doverspike, Turnbo, White, "aye"; no "nays"; no "abstentions"; none "absent") to **APPROVE** a **Variance** of the required number of parking spaces from 20 to 11 to permit additional parking for a new tenant, and to correct a deficit of 5 spaces on a previously approved site plan (BOA 16244) - **SECTION 1211.D. Interested Parties:

Jerry Hoffmeister stated that he is representing the **Manger Baptist Church** and **Jack Brown**, an area homeowner. He informed that his clients are not concerned with the proposed use, but are concerned with future use of the property. He stated that they are concerned that a smoke shop business or gaming would be conducted on the tract.

In reply to Mr. Hoffmeister, Mr. Jackere advised that the Board would have no jurisdiction if the land was trust land for the Creek Tribe.

Mr. Hoffmeister asked that the land remain as currently represented in this proposal.

Applicant's Rebuttal:

Mr. McGilbray advised that the Creek Community plans do not include gaming, and gaming is not permitted, because funds will be received through a HUD Block Grant.

In reply to Mr. Doverspike, the applicant stated that an individual is required to have a certain degree of Creek blood to be a member of the Creek Community. He pointed out that the community activities would not be open to the general public.

Mr. Norman submitted a conceptual site plan (Exhibit M-1) and a 1994 Annual Report (Exhibit M-3) provided by the Center. He informed that the organization is proposing to relocate and construct a new out-patient facility on the three-acre tract. The applicant stated that the school has been vacant for more than 25 years. Mr. Norman advised that residential care or group living will not be provided by the Center. He noted that there are multiple zoning classifications in the area and the Corridor Revitalization Study (Exhibit M-8), which was prepared by TMAPC and Urban Development and approved by the City Council, states on Page 11 that the first use priority is as a museum and the second priority is a community type use. Mr. Norman informed that Phase I of the project will be 26,500 sq ft, with the total maximum building area (Phase I and Phase II) being 53,000 sq ft. He stated that only Phase I of the project is under application at this time, and noted that the minimum landscaped area will be 15%, which complies with office development requirements. Mr. Norman advised that the budget for the new project is more than three and one-half million dollars and the proposed facility will be an asset to the neighborhood.

Case No. 17092 (continued)

Comments and Questions:

Mr. Doverspike asked if there is sufficient parking to accommodate Phase I and Phase II, and Mr. Norman replied that the requirements may be met if Phase II is two stories.

In reply to Mr. Bolzle, the applicant stated that landscaping will be installed instead of a wood screening fence.

Mr. Bolzle asked if emergency services will be provided, and Mr. Norman replied that the medical center will be open during normal clinic hours, with no emergency service.

Protestants:

Four letters of protest (Exhibit M-6) were received from business operators in the area.

J. D. Smith informed that he is representing the Veteran of Foreign Wars, Post No. 577, 1109 East 6th Street, and voiced a concern that patients will park in their parking lot. He stated that a similar facility was visited and it was found that their parking lot was littered with several discarded items.

H. M. Blackwell, 9822 East 7th Street, stated that the proposed use will not upgrade the neighborhood and will compound existing problems. He noted that the area residents were told that commercial shopping would be at this location and asked the Board to deny the application.

Fred Kumpf, 1221 South Newport Avenue, advised that he is representing the Tracy Park neighborhood, and suggested that the site be developed like the corner of 15th Street and Peoria Avenue.

Jim Norton, Downtown Tulsa Unlimited, advised of their involvement in the creation of the tax increment district and the development of that plan. He pointed out that this plan calls for retail in this area. Mr. Norton stated that he is supportive of Indian health care, but feels the Tax Increment Plan should be considered by the Board.

Ann Thrasher, president of the Central Park Neighborhood Association, submitted a packet (Exhibit M-7) including Central Park Tax Increment District No. Two Project Plan, a letter to the Board and newspaper articles concerning City development. She informed that the neighborhood association has been working toward development in this area for approximately eight years and retail growth in the area is vital. Ms. Thrasher advised that a medical clinic is not the highest and best use for this site.

Case No. 17092 (continued)

Milford Carter advised that he is a resident of the area, as well as a property owner, and is pastor of the Sanctuary Evangelistic Church. He stated that he is supportive of the health care facility, but feels that commercial development of the corner is necessary for the revitalization of the neighborhood. Mr. Carter advised that this corner can be developed similar to other commercial ventures in the area, and commercial use is the highest and best use of the subject property.

Farrell Thrasher, 560 South Quaker, president of the 6th Street Merchants Association, advised that his copy of the 11th Street Corridor Study states that the first priority for the use of the school is commercial retail development. He informed that citizens of the area have had input in the Home Depot project and are concerned with future development in the vicinity. Mr. Thrasher stated that the proposed health care facility will have a detrimental impact on the neighborhood.

In reply to Ms. Turnbo, Mr. Thrasher stated that the Tax Increment Plan was approved by the City Council.

Allan Stewart, 2244 East 7th Street, advised that he is the planning chair for District 4 and noted that the school in question is located in a highly visible and key position for revitalization. He informed that the first priority for its reuse is commercial, which could be similar to the development at 15th Street and Peoria Avenue.

Dave Strader, 812 South Quincy, informed that the area is inundated with 22 social service operations (Exhibit M-5) and voiced a concern with patients being treated for mental problems, drugs and AIDS using the park where the children play. He informed that many hours of work have gone into the approved plan for the area and asked the Board to deny the request.

A copy of the 11th Street Redevelopment Plan (Exhibit M-4) was submitted.

Approximately 10 individuals in the audience indicated opposition to the request, but did not choose to speak.

Applicant's Rebuttal:

Mr. Norman clarified that the proposed facility will provide outpatient services and will be no different than any other clinic operating in the community. He informed that Dane Matthews, INCOG staff, provided the Corridor Revitalization Study referred to in his previous presentation. Mr. Norman noted that Hillcrest Hospital and the Tulsa Psychiatric Center have been operating very successfully across the street from a park. He pointed out that a similar facility was approved at 12th Street and Denver Avenue and there was no objection from Mr. Norton or the neighborhood. Mr. Norman noted that other medical facilities, such as Children's Medical Center and Springer Clinic, are operating adjacent to very nice residential neighborhoods. He pointed out

Case No. 17092 (continued)

that there has been no objection to the site plan and it has not been asserted that the land use is incompatible with the nearby CH and IL zoning. Mr. Norman noted that it is very unusual that area residents prefer a commercial use over less intense office use. The applicant stated that the proposed use would be permitted by right in a commercially zoned district.

Additional Comments:

In reply to Mr. Bolzle, Mr. Norman informed that a detail site plan has not been prepared at this time.

In response to Ms. Abbott's concern regarding the access on 5th Place, Mr. Norman stated that the access point on 5th Place is across from the CH zoned property.

Mr. Bolzle stated that he finds the use to be compatible with the area.

Ms. Turnbo noted that the Comprehensive Plan and the Tax Increment Plan, which were both approved by the City Council, seem to have conflicting information as to the uses preferred at this location.

Mr. Bolzle asked if Staff would support an application for office use in an area designated as CH in the Comprehensive Plan, and Mr. Gardner advised that, if zoned CH, the use would be permitted by right.

In reply to Ms. Turnbo, Mr. Gardner advised that the Comprehensive Plan states uses that would seem to be compatible with the area, but the Zoning Code designates uses that are permitted at this time.

Mr. Doverspike remarked that each vacant school in the City is unique, as is the character of the surrounding area. He stated that it is his opinion, based on the studies presented and the information provided by the protestants, that the proposed use would be injurious to the neighborhood.

Ms. Abbott asked if this site could feasibly be developed commercial, and Mr. Gardner advised that the Code would permit one-half of the property to be developed as a one-story building for commercial use (approximately 30,000 sq ft could be constructed and meet parking requirements).

Mr. Bolzle pointed out that the Board is to determine land use and a health care facility is an appropriate use at this location.

Case No. 17092 (continued)

Board Action:

On **MOTION** of **DOVERSPIKE**, the Board voted 3-2-0 (Doverspike, Turnbo, White, "aye"; Abbott, Bolzle, "nay"; no "abstentions"; none "absent") to **DENY** a **Variance** to permit medical offices and clinic and an outpatient Indian health care facility in an RM-2 zoned district - **SECTION 401. PRINCIPAL USES PERMITTED IN RESIDENTIAL DISTRICTS** - Use Unit 11; finding the use to be incompatible with the neighborhood; on the following described property:

All of Block 9 of the Central Park Place Addition, City of Tulsa, Tulsa County, Oklahoma.

Case No. 17094

Action Requested:

Minor Variance of the required rear yard from 25' to 21' to construct a new residence - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6, located east of the NE/c Winston Avenue and 113th Place South.

Presentation:

The applicant, **Michele Dillingham**, 11126 East 75th Place, was represented by **Mike Dillingham**, who informed that the rear portion of their proposed dwelling will extend into the required rear yard. He informed that the loan has been obtained and the builder is ready to proceed with construction plans. A plot plan (Exhibit N-1) and a brochure (Exhibit N-2) were submitted.

Steve Murphy, 3023 East 74th Place, informed that he is the builder and that a 16' portion of the proposed dwelling will extended 4' into the required yard. He explained that he previously constructed this home on a slightly irregular lot; however, after selling Mr. Dillingham the subject property, it was discovered that the same house cannot be constructed on this lot without a minor variance. Mr. Murphy informed that he, as well as the architect and the lending institution, failed to notice the error.

Comments and Questions:

Mr. Gardner noted that the irregular shape of the lot caused the dwelling to fit on the other lot, but the same plan cannot be constructed on the rectangular shaped lot in question without Board relief.

Mr. Murphy informed that the entire subdivision was permitted to build 5' closer to the street than required by Code to eliminate front loading garages.

Mr. Bolzle stated that the applicant has not presented a hardship for the minor variance.

Case No. 17094 (continued)

In reply to Ms. Abbott, Mr. White explained that the lot in question is the same size as the lot previously built on; however, the other lot was able to accommodate the same house because of the slanting lot lines.

Mr. Bolzle noted that there is sufficient space in the side yard to redesign the rear portion of the dwelling.

Board Action:

On **MOTION** of **DOVERSPIKE**, the Board voted 4-1-0 (Abbott, Doverspike, Turnbo, White, "aye"; Bolzle, "nay"; no "abstentions"; none "absent") to **APPROVE** a **Minor Variance** of the required rear yard from 25' to 21' to construct a new residence - **SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS** - Use Unit 6; per plan submitted; finding that approval of the request will not be detrimental to the neighborhood; on the following described property:

Lot 17, Block 2, Lexington Addition, City of Tulsa, Tulsa County, Oklahoma.
