Platting/Subdivision Conformance Review Requirement

For the purposes of providing a proper arrangement of streets and assuring the adequacy of open spaces for traffic, utilities, and access of emergency vehicles, commensurate with the intensification of land use customarily incident to a change of zoning, a platting requirement or subdivision conformance review is established as follows:

For any land which has been rezoned to a zoning classification upon application of a private party or for any land which has been granted a special exception by the Board of Adjustment to permit those uses expressly stated in Section 70.080-B.2.b of the City of Tulsa Zoning Code, no building permit or zoning clearance permit shall be issued until that portion of the tract on which the permit is sought has been included within a subdivision plat or replat, or a subdivision conformance review as the case may be, submitted to and approved by the Planning Commission, and filed of record in the office of the County Clerk where the property is situated.

I hereby certify that I have read and understand the above requirements and that I will plat, replat or comply with standards set by the subdivision conformance review for the subject property.

Authorization to Obtain Names and Mailing Addresses of Owners of Property Within 300 Feet or Extended Until a Minimum of 15 Property Owners are Notified

I authorize City of Tulsa staff to obtain property owners' names and addresses as required for this application. I understand that City staff will use the Tulsa and Surrounding County Assessor's computer database to ascertain the names and addresses of the property owners. That database may not reflect recent ownership changes.

For valuable consideration duly received and acknowledged, I hereby release and forever discharge the City of Tulsa, its agents and successors from any actual or potential cause of action, suit or proceeding brought by me, my agents or assigns, based on the names and addresses obtained by City staff as required in this application.
