**Re: 22103 Flat Rock Terrace Subdivision Regulations Modification Request**

To Whom it May Concern,

As part of the preliminary plat review process for Flat Rock Terrace, I would like to formally request modifications to the requirements set forth in Table 5-1: Maximum Block Lengths in the TMAPC Subdivision and Development Regulations. As shown on the preliminary plat, City of Tulsa Regulatory and FEMA Floodplain are both present on the site and cover the southeast corner of the project. Due to these natural, environmental conditions, no streets or stub streets are proposed heading southeast, causing Blocks 7 and 8 to be over the allowed maximum block length of 700'. A pedestrian access point has been provided to ensure pedestrian connectivity. On behalf of the applicant, Nathan Cross, I respectfully request relief from the maximum block length requirement for Blocks 7 and 8 due to natural and environmental concerns.

Respectfully.

Megan Pasco, PE
