RELATIONSHIP TO THE COMPREHENSIVE PLAN:

Staff Summary: *The proposed use is consistent with the proposed Multiple Use land use designation.*

Land Use Vision:

Land Use Plan map designation: Neighborhood

Neighborhoods are “Mostly Residential Uses” which includes detached, missing middle, and multidwelling unit housing types. Churches, schools, and other low-intensity uses that support residents’ daily needs are often acceptable, particularly for properties abutting Multiple Use, Local Center, or Regional Center land use areas. Multidwelling unit housing that takes access off of an arterial is considered Multiple Use, Local Center, or Regional Center. If a multidwelling unit housing property takes access off of a lower order street separated from the arterial, then it would be considered Neighborhood.

Proposed Land Use Plan map designation: Multiple Use

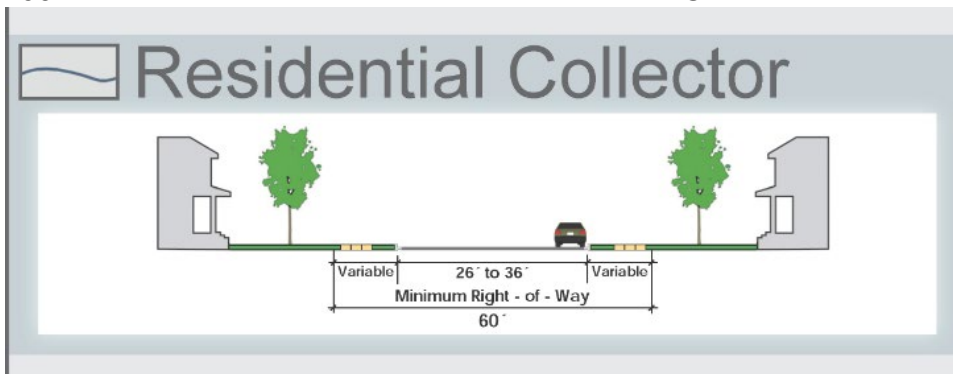

Multiple Use areas are “Mostly Commercial or Retail Uses” which include restaurants, shops, services, and smaller format employment uses. This land use designation is most common in areas of the city from earlier development patterns, with Local Centers being more commonplace in newer parts of the city. For single properties that are commercial but surrounded by Neighborhood, Multiple Use is the preferred designation.
