DETAILED STAFF RECOMMENDATION:

The Tulsa Comprehensive Plan designates this area as Neighborhood. RM-2 zoning aligns with the recommendations for the Neighborhood land use designation in this area.

Rezoning to RM-2 would permit redevelopment of the site with the addition of more housing units. The applicant is proposing duplexes on each lot under the zoning proposal.

RM-2 zoning requires 5,500 square feet of lot area and 200 square feet of open space per unit in addition to the required parking associated with any new development of the property. The maximum building height allowed in the RM-2 district is 35 feet which is consistent with the surrounding zoning districts in the area.

Rezoning of the property would increase the potential of this property and permit the addition of needed new housing units in the area while maintaining an appropriate scale for the surrounding area.

Staff recommends approval of Z-7751 to rezone the property from RS-3 to RM-2.

SECTION II: Supporting Documentation

RELATIONSHIP TO THE COMPREHENSIVE PLAN:

Staff Summary: The subject property is designated as “Neighborhood” by the Comprehensive Plan land use map. The proposed RM-2 district aligns with the recommendations of the “Neighborhood” land use designation in this area.

Land Use Vision:

Neighborhood

Neighborhoods are “Mostly Residential Uses” which includes detached, missing middle, and multi-dwelling unit housing types. Churches, schools, and other low-intensity uses that support residents’ daily needs are often acceptable, particularly for properties abutting Multiple Use, Local Center, or Regional Center land use areas. Multi-dwelling unit housing that takes access off of an arterial is considered Multiple Use, Local Center, or Regional Center. If a multi-dwelling unit housing property takes access off a lower-order street separated from the arterial, then it would be considered Neighborhood.
